BIOCHEMICAL PHARMACOLOGY

SUBJECT INDEX FOR VOLUME 44, 1992

A23187
effect on glutathione S-transferase isoenzymes in hepatocytes 2099
induced mediator release from lung pleura 1609
mitogenic response in thymocytes, effect of staurosporine 1563
stimulated cyclic AMP production in pancreatic islets, effect of cyclosporin A 359
Acanthocheilonema viteae
effect of 2,2'-dicarbomethoxylamino-5,5'-dibenzimidazolyl ketone on antioxidant defenses 727
Acetaldehyde
catalase mediated production in brain homogenates 93
Acetaldehyde-tubulin adducts
inhibition of microtubulin formation 65
Acetaminophen
depletion of glutathione and cysteine in aging mouse kidney 129
glucuronidation in liver, effect of malaria infection 1879
effect on glutathione and adenosine 3'-phosphate 5'-phosphoslufate syntheses in hepatocytes 447
hepatotoxicity
effect of dietary fat 1303
hepatic respiration and ATP depletion 163
Acetyl-L-carnitine
stimulation of nerve growth factor receptors in PC12 cells 577
Acetylcholine
effect on phosphoinositides in adrenal cells 441
Acetylcholine reactivators
binding to proteoglycans in chondrocytes and fibroblasts 1927
Acetylcholinesterase
inhibition by phenothiazines 1511
N-Acetylcysteine
effect on adriamycin-induced lipid peroxidation in heart and liver 839
Acetylenes
inhibition of cyt P450 1A1 and P450 2B1 in liver microsomes 787
N-Acetylglucosaminidase
release from lysosomes, effect of flavonoids 1243
N-Acetyltransferase
in human red blood cells 1099
N-Acetyltransferase(contd.)
in liver, effect of exercise 121
Acetyltransferase/cyt P450 system
6-aminochrysene activation 913
α1-Acid glycoprotein
in serum, effect of interleukin-6 137
Acid phosphatase
biliary secretion, effect of cyclosporin A 1105
Acitretin
binding to plasma proteins and erythrocytes 1891
Actin cytoskeleton
role in dopamine formation in kidney 1883
Actinonin
inhibition of zinc aminopeptidases 1725
Acyl glucuronides, albumin glycation 1661
Adenosine
N^6-methylated derivatives, inhibition of MEL cell differentiation 927
Adenosine deaminase
inhibition by azapurine ribonucleosides 1697
Adenosine-3',5'-monophosphate
adrenal medullary cells 2105
in brain
effect of antidepressants 1067
effect of dopamine agonist and antagonists following 6-hydroxydopamine lesion 73
effect of methylparaben 1053
effect of reserpine 83
effect on hepatocyte growth factor-induced mitogenesis 1037
in pancreatic islets, effect of cyclosporin A 359
in parotid cells, effect of monensin 1395
in peripheral blood mononuclear cells, effect of albumin 351
role in histamine-induced differentiation of HL-60 cells 1115
Adenosine monophosphate kinase
in L1210 cells, phosphorylation of acyclic nucleotide analogs 2067
Adenosine-3',5'-monophosphate phosphodiesterase
in adipocytes, effect of flavonoids 1307
Adenosine 3'-phosphate 5'-phosphosulfate

Adenosine 3'-phosphate 5'-phosphosulfate
synthesis in hepatocytes, effects of cysteine and acetaminophen 447
Adenosine A2 receptors
striatum, ion effects on 2365
H^+,K^+-Adenosine triphosphatase
gastric
inhibition by cassigarol A 33
effect of stilbene derivatives 1947
Na^+,K^+-Adenosine triphosphatase
kidney
effect of calcium antagonists 1529
inhibition by β-eudesmol 373,993
Adenosine triphosphate
in liver, effect of acetaminophen 163
effect on N1E-115 cells 1479
S-Adenosyl-L-methionine
photoaffinity labeling of thiopurine methyltransferase in kidney 775
S-Adenosylmethionine/S-adenosylhomocysteine ratio
in pig tissues, effect of nitrous oxide 1349
S-Adenosylmethionine decarboxylase
in brain after trauma 401
in Trypanosoma brucei brucei, inhibition by S-adenosylmethionine analogues 905
Adenylate cyclase
in liver plasma membranes, effect of β3-agonists 2333
in peripheral blood mononuclear cells, effect of albumin 351
in pituitary tumor cells, effect of hypothalamic hormones 471
role in hepatocyte growth factor induced hepatocyte proliferation 1037
in striatum
dopamine receptor interaction 73, 83
reserpine-induced down regulation 83
Adipocytes
β-adrenergic receptors 681
effect of BQ-123 on ET-1-induced reduction of lipoprotein lipase 1431
effect of flavonoids on cyclic AMP phosphodiesterase and lipid mobilization 1307
insulin-like effects of molybdate + H_2O_2 or tungstate + H_2O_2 174
Adrenal gland
cyclic AMP metabolism in medullary cells 2105
clonidine-displacing substance in 733
effect of ethanol on benzodiazepine receptors 1335
phosphoinositides in cultured zona fasciculata/reticularis cells 441
prostaglandin E2-induced arachidonic acid release and catecholamine secretion from chromaffin cells 2315
regulation of epoxide hydrolase in liver 815
effect of sea urchin toxin on catecholamine secretion and synthesis 1779
Adrenaline
effect on glucose metabolism and H_2O_2 in macrophages 2235
β3-Adrenergic agonists
characterization in liver plasma membranes 2333
β-Adrenergic receptors
adipocytes, sheep and rat 681
colon, atypical 665
Adrenergic transmission
effect of antidepressants 1067
Adrenocortical cells
substance P-induced protein synthesis 1357
Adriamycin
accumulation in multidrug-resistant cells, effect of Servier 9788 1707
effect on glucuronidation and lipid peroxidation in liver 747, 755
inactivation in multidrug-resistant cells 1869
resistant Chinese hamster cell lines 1859
toxicity in mice, effect of ebselen 839
Adriamycin + carmustine
nuclear glutathione depletion 1383
AFK-108
interaction with cyt $P450_{14DM}$ 1701
Aging
acetaminophen-induced depletion of glutathione in kidney 129
acetyl-L-carnitine stimulation of nerve growth factor receptors in PC12 cells 577
effect on cyt P450 IIIA in human liver 275
AIDS
AZT-induced anaemia 1009
Albumin
effect on adenylate cyclase in peripheral blood mononuclear cells 351
anthracycline interaction, effect of pH 2347
BW348U87 binding 1417
drug binding sites 873
etretinate and acitretin binding 1891
fluorescence quenching by xanthines 824
glycation by acylglucuronides 1661
L-tryptophan and 6-fluoro-DL-tryptophan binding 2082
warfarin, salicylate and diazepam binding to variants 1515
Alcohol
effect on hepatic gluconeogenesis 1617
Alcohol dehydrogenase
in hepatocytes, effect of serum-free medium 1461
in yeast, inactivation by alkylperoxyl radicals 1443
Aldehyde dehydrogenase
in liver
activation at physiological temperatures 2425
phenobarbital induction, strain and species differences 1651
Aldose reductase
sorbinil binding 2427

Aldose reductase inhibitors
effect on composition of rat urine 231
Alkylbenzoylacrylic acids
phospholipase A2 inhibition 805
Alkylperoxyl radicals
inactivation of yeast alcohol dehydrogenase 1443
Allergic diseases
alkylbenzoylacrylic acids in treatment 805
Alloxan
induced hyperglycaemia, inhibition of 2111
Alphazolone
effect on flunitrazepam binding in brain 1297
Alveolar macrophages
soybean trypsin inhibitor and β-amylase induced nitrogen oxide release 387
Alveolar type II cells
paraquat and putrescine uptake 1029
Amastatin
inhibition of zinc aminopeptidases 1725
Amikacin
molecular hydrophobicity potential 1967
Amiloride
effect on atrial muscle 425
Amino alcohols
Ca^{2+} channel blocking activity 2039
3-Amino-1,2,4-benzotriazene-1,4-dioxide
reductive bioactivation 251
γ-Aminobutyric acid
metabolism in brain of spontaneously hypertensive rats, effect of propranolol 465
in pancreatic islets 1
release from synaptosomes, effect of depolarizing agents 301
γ-Aminobutyric acid A receptor
effect of free fatty acids on ligand binding 11
temperature and anion dependence of allosteric interactions 1297
γ-Aminobutyric acid transaminase
in pancreatic islets 1
6-Aminochrysene
activation by rat liver cyt P450s 913
2-Aminofluorene
oxidative activation by human red blood cell cytosol 2422
Aminoglycosides
molecular hydrophobicity potential 1967
5-Aminolevulinic acid synthase
in Gunn rat liver mitochondria 1465
Aminooxyacetate
effect on fluorescein uptake in renal tubules 2213
Aminopeptidases N, A and W
kidney, inhibition of 1725
Aminopeptidase P
platelets 479
Aminophospholipid
asymmetry in synaptosomes, effect of phospholipase A2 toxins and enzymes 1073
4-Aminopyridine
effect on GABA release from synaptosomes 301
Aminopyrine N-demethylase
in liver microsomes
effect of ethylbenzene 1171
effect of interleukin-1α 1669
9-Amino-1,2,3,4-tetrahydroacridine
inhibition of histamine-N-methyltransferase by fragments of 989
3-Amino-1,2,4-triazole
catalase inhibition 1535
Amitriptyline
effect on central adrenergic transmission 1067
Amsacrine
oxidation by myeloperoxidase 1731
Amylase
induction of nitrogen oxide release by alveolar macrophages 387
release from parotid cells, effect of monensin 1395
Anaemia
AZT-induced 1009
Analgesia
capsaicin 611
Anaphylactic mediators
release from lung pleura 1609
Angiotensin II
effect on phosphoinositides in adrenal cells 441
Angiotensin converting enzyme
in lung, inhibition by lisinopril and its dansyl derivative 565
in serum, effect of cadmium 187
Angiotensin converting enzyme inhibitors
effect on zinc aminopeptidases 1725
Aniline hydroxylase
in liver microsomes
effect of ethylbenzene 1171
effect of δ-9-tetrahydrocannabinol + theophylline 2021
Aniline mustards
cytotoxicity, DNA crosslinking and DNA sequence selectivity 59
Ansamycin conjugate
uptake by liver 2117
Anthocyanidin
inhibition of glutathione reductase 1603
Anthracyclines
effect on membrane phospholipid homeostasis 1139
protein binding, effect of pH 2347
Antibody Directed Enzyme Prodrug Therapy 631, 2289, 2297
Antidepressants
effect on central adrenergic transmission 1067
Antiflammins
effect on human phospholipase A2 519
in vitro and *in vivo* effects 1437
Antimalarials
effect on primaquine metabolism by human liver microsomes 587
Antimony
biliary excretion, role of glutathione 1275
Antioxidants
ascorbic acid-glutathione interaction 1905
boldine 1765
coumarins 205
dihydrolipoic acid 1637
ebselen 39
in heart, effect of ethanol 1495

Antioxidants(contd.)
inhibition of porcine 5-lipoxygenase 157
effect on synaptosomal amine uptake 2395
α1-Antiproteinase
inactivation by phenylbutazone + haem proteins 981
Antitumor drugs
effect on membrane phospholipid homeostasis 1139
Antitumor ether lipids 819
Aorta
effect of cyclic AMP phosphodiesterase inhibitors on DNA synthesis in smooth muscle cells 857
endothelin release from endothelial cells 851
Δ^{12}-PGJ_2-induced protein synthesis in endothelial cells, effect of glutathione 1597
Apoptosis
in thymocytes from dexamethasone-treated rats 2131
1-β-D-Arabinosylcytosine
effect on polyamines in male accessory organs 593
Arachidonic acid
Ca^{2+}-dependent release from neutrophils 2055
effect on $GABA_A$ receptor ligand binding 11
liberation in mast cells, effect of biscloclaurine alkaloids 45
metabolism in platelets, effect of hypoglycaemic agents 687
PGE_2-induced release from cultured chromaffin cells 2315
in thrombocytes from schizophrenic patients, effect of neuroleptics 317
Arachidonic acid cascade
PAF formation 1001
Argatroban
effect on thrombin-induced responses in endothelial cells 2409
Aristolochic acid
effect on lysoPAF production and arachidonic acid release 2055
Aroclor 1254
induction of cyt P450 activities in hepatocytes 455
Arteparon
effect on metalloproteinases 1549
Arthritis
tetracyclines and phospholipase A2 1165
treatment with fluoromethyl ketones 1201
2-Arylpropionyl-coenzyme A thioesters
Co-A ligase catalysing formation of 2415
Ascorbic acid
glutathione interaction 1905
induced decrease in synaptosomal amine uptake, effect of antioxidants 2395
prooxidant action in fibroblasts 2191
effect on prooxidant effect of phenylbutazone 981
Ascorbic acid 2-O-α-glucoside
cytotoxicity to cultured fibroblasts
Ascorbic acid 2-O-α-glucoside(contd.) 2191
Ascorbyl radical
reduction by dihydrolipoic acid 1637
Asialoglycoprotein receptor
liver, drug targeting 2117
Asparaginase
induced histamine release from mast cells 533
Atherogenesis
effect of dihydropyridine calcium channel blockers 2379
Atrial muscle
effect of TMB8 425
Atrial natriuretic factor
pharmacokinetics in anaesthetized rats 1013
Audiogenic seizures
effect on tribulin in brain 1209
Auranofin
effect on PMN activation 1091
Aurocyanide
effect on PMN activation 1091
Aurothiomalate
effect on PMN activation 1091
Azapurine ribonucleosides
inhibition of adenosine deaminase 1697
3'-Azido-3'-deoxythymidine
effect on erythropoietin receptor 1009
glucuronidation in liver, effect of malaria infection 1879
3'-Azido-2',3'-dideoxyuridine
catabolic disposition in hepatocytes 973
Azidopine
labeling of P-glycoprotein in P388/ADR plasma membranes 1707
Aziridinylalkylamines
inhibition of diamine oxidase 1229
5-(Aziridinyl-1-yl)-2,4-dinitrobenzamide
bioactivation 2289, 2297
potentiation of cytotoxicity by reduced pyridine nucleotides 1739
reduction by DT diaphorase
NAD^+ as cofactor 631
novel co-factors 25
2,2'-Azobis(2-amidopropane)
inactivation of yeast alcohol dehydrogenase 1443
Azole antifungal agent AFK-108
inhibition of lanosterol 14α-demethylase in yeast 1701

Barbital
induction of hepatic drug-metabolizing enzymes 1651
Barbiturates
protection against alloxan toxicity 2111
Bay K8644
effect on calcium uptake by liver plasma membrane vesicles 1214
inhibition of PN200-110 binding in heart, effect of GTP-γ-S 1680
BAY U 3405
binding to platelets 495
Benfluorex
effect on glucose metabolism in rats 379

Benoxaprofen
effect on peroxisomal palmitoyl-CoA ligase 261
Benz(a)anthracene quinone
reduction by liver dihydrodiol dehydrogenase 341
Benzoate
effect on chiral inversion of ibuprofen in hepatocytes 1468
Benzodiazepine receptors
in brain
effect of ethanol 1335
imidazo(1,2-b)pyridazines as ligands 1555
in liver mitochondria, effect of protoporphyria 1159
peripheral type
human lymphocytes and lymphoma cells 269
imidazo(1,2-b)pyridazines as ligands 1555
Benzoic acids
quantitative structure-metabolism relationships 1935
Benzo(a)pyrene
metabolism in cryopreserved liver parenchymal cells 309
microsomal biotransformation in rat tissues, effect of ethanol 1977
Benzo(a)pyrene quinone
reduction by liver dihydrodiol dehydrogenase 341
1,4-Benzoquinone
reduction by liver dihydrodiol dehydrogenase 341
Benzphetamine N-demethylase
in hepatocytes, effect of serum-free medium 1461
in liver
effect of clotrimazole 2266
effect of ethylbenzene 1171
effect of exercise 121
effect of interleukin-1 1669
Bepridil
effect on Na^+,K^+-ATPase and sodium pump 1529
Berbamine
effect on arachidonic acid liberation in mast cells 45
Berbamine compound E6
interaction with calmodulin-dependent myosin light-chain kinase 1543
Berenil
inhibition of enzymes of polyamine back-conversion 830
Bestatin
inhibition of zinc aminopeptidases 1725
Bile
antimony and bismuth excretion 1275
lipid and protein secretion, effect of cyclosporin A 1105
taurocholate-stimulated excretion of horseradish peroxidase, effect of lysosomotropic agents 1683
transport of steroidal muscle relaxants 1453
Bile acid
effect of cyclosporin A on secretion 1105
glutathione and synthesis of 1475
Bile salts
effect on cation uptake in liver 2323
2',7'-Bis(2-carboxyethyl)-5(6)-carboxyfluorescein
polarized efflux from cultured epithelial cells 417
4-(Bis(2-chloroethyl)amino)benzoic acid
cytotoxicity, DNA crosslinking and DNA sequence selectivity of 59
Biscoclaurine alkaloids
inhibition of mast cell phospholipase A2 45
1,3-Bis-(3,4-dichlorophenyl)-2-thiourea
oxidation in mammalian tissues 2029
Bismuth
biliary excretion, role of glutathione 1275
Bleomycin
genotoxicity in hepatocytes 1255
induced DNA damage, inhibition of repair by 2'-deoxycoformycin 2229
Blood
NAD(P)H metabolism 631
Blood flow
heart, effect of furoxans 1149
Blood pressure
effect of cadmium 187
Boldine
antioxidant activity in liver 1765
Bone marrow progenitor cells
cytotoxicity of 2',3'-dideoxy-3'-thiacytidine enantiomers 1921
effect of zidovudine on erythropoietin receptor 1009
BQ-123
suppressive effect on ET-1-induced reduction of lipoprotein lipase in adipocytes 1431
Bradykinin
cleavage of Arg^1-Pro^2 bond by aminopeptidase P in human platelets 479
Brain
effect of antidepressants on adrenergic transmission 1067
clonidine-displacing substance in 733
cyt P450 in microsomes 1223
4-DAMP mustard inactivates muscarinic receptors 285
effect of (-)deprenyl infusion on superoxide dismutase and catalase 2185
effect of ethanol on benzodiazepine receptors 1335
5-fluoro-DOPA and 6-fluoro-DOPA metabolism in cultured fetal cells 99
GABAergic system and propranolol hypotension 465
haloperidol reductase in 867
histamine H3 receptors 1261
methionine synthase and AdoMet/AdoHcy ratio, effect of nitrous oxide 1349
effect of methylparaben on cyclic nucleotides 1053
polyamine function 401
L-tryptophan and 6-fluoro-DL-tryptophan uptake 2082
Breast cancer cells
MCF-7
diaziquone metabolism 1625
drug resistance reversion by doxorubicin-nanospheres 509

Breast cancer cells
MCF-7(contd.)
effect of vitamin D analogues on proliferation 693, 2273
MDA468, T47D and ZR75, DT-diaphorase levels and sensitivity to quinone-based drugs 409
BRL 37,344
characterization in liver plasma membranes 2333
S-p-Bromobenzylglutathione diethyl ester
effect on leukemia HL-60 cells 2357
2-Bromocarboxylic acids
conjugation by glutathione S-transferases 1249
p-Bromophenacyl bromide
effect on lysoPAF production and arachidonic acid release 2055
effect on PGE_2-induced catecholamine release from chromaffin cells 2315
3-(3-Bromophenyl)-2-hydroxy-1(1-(4-phenylpiperidinyl))propane
Ca^{2+} channel blocking activity 2039
Bronchospasm
effect of alkylbenzoylacrylic acids 805
Bufurolol monooxygenase
in liver microsomes, effect of interleukin-1α 1669
β-Bungarotoxin
effect on aminophospholipid asymmetry 1073
Butein
effect on lipolysis in adipocytes 1307
Buthionine sulfoximine
effect on enalapril hepatotoxicity 1803
glutathione-ascorbic acid interaction 1905
glutathione depletion in melanoma cells 1383
effect on heat and oxidative stress in human tumor cells 2126
effect on mutagenicity of RSU-1069 and RSU-1131 in V79-4 cells 1341
effect on Δ^{12}-PGJ_2-induced protein synthesis in aortic endothelial cells 1597
Butylated hydroxyanisole
dietary, induction of rat hepatic and intestinal glutathione S-transferases 596
inhibition of porcine 5-lipoxygenase 157
Butylated hydroxytoluene
inhibition of porcine 5-lipoxygenase 157
t-Butylbicyclophosphorothionate
binding in brain, effect of free fatty acids 11
t-Butyl hydroperoxide
effect on glutathione S-transferase isoenzymes in hepatocytes 2099
induced cell injury, effect of cyclosporin A 1995
effect on protein S-thiolation in endothelial cells 1757
toxicity in hepatocytes, effect of iron 1367
BW348U87
binding to HSA 1417
C5a
induced superoxide anion production, effect of molsidomine 637
Cadaverine
aziridinyl derivatives, inhibition of diamine oxidase 1229
Cadmium
decreased glucuronidation in rat 2139
induction of renal and hepatic ornithine decarboxylase 721
effect on renin angiotensin system in rats 187
Caffeine
effect on alloxan toxicity 2111
fluorescence quenching of HSA 824
Calcipotriol
effect on breast cancer cell proliferation 693
Calcium
effect of altered homeostasis on glutathione S-transferase isoenzymes in hepatocytes 2099
effect on CGS 21680 binding to adenosine A2 receptor in striatum 2365
dependent arachidonic acid release from neutrophils 2055
S-(1,2-dichlorovinyl)-L-cysteine-induced release from kidney mitochondria 1131
in endothelial cells, effect of thrombin 2409
homeostasis in brain, effect of polyamines 401
human phospholipase A2 responses to 1849
independent and dependent release of GABA, effect of depolarizing agents 301
influence on activation of glycogenolysis by methotrexate 761
metabolism in vivo, effect of vitamin D analogues 693
mitochondrial
role in prooxidant induced cell injury 1995
effect of trifluoperazine on prooxidant induced damage 1795
in N1E-115 cells, effect of ATP 1479
release from parotid cells, effect of monensin 1395
transport in mammary tissue, effect of salicylate 645
uptake by kidney microsomes, effect of ochratoxin A 1401
uptake by liver plasma membrane vesicles, effect of 1,4-dihydropyridines 1214
Calcium antagonists
effect on Na^+,K^+-ATPase in kidney 1529
protection against hypoxic liver injury 2207
protection against oxidized LDL in lymphoid cells 2379
Calcium channels
in heart, effect of G proteins 1680
Calcium/sodium exchange
in atrial muscle, effect of TMB8 425
Calmodulin
dependent myosin light chain kinase, interaction with berbamine compound E6 1543

Calmodulin binding protein
synthesis in adrenocortical cells in substance P-induced steroidogenesis 1357
Candoxatrilat
effect on clearance of atrial natriuretic factor in rats 1013
Capsaicin
neuropharmacology 611
Capsazepine 611
Captan
inhibition of RNA polymerase 2251
Captopril
effect on zinc aminopeptidases 1725
Carbachol
induced catecholamine secretion, effect of sea urchin toxin 1779
Carbamazepine
cyt P450 3A-mediated bioactivation 2307
β-Carbolines
inhibition of histamine-N-methyltransferase 989
Carbonyl reduction
in continuous cell lines 2005
Carboplatin
induced histamine release from mast cells 533
Carboxylesterase
in rat and guinea pig tissues, monoclonal antibodies to isoenzymes 171
in rat liver cells 827
Cardiac glycosides
effect on cation uptake in liver 2323
Carnitine
in rat organs, effect of pivampicillin 1226
Cassigarol A
inhibition of gastric H^+,K^+-ATPase and acid secretion 33
Catalase
in Acanthocheilonema viteae and its host tissue, effect of compound 82/437 727
in brain and liver, effect of (-)-deprenyl infusion 2185
mediated ethanol metabolism in brain 93
Catechin
effect on cyclic AMP phosphodiesterase in adipocytes 1307
inhibition of glutathione reductase 1603
effect on lysosomes subjected to stress 1243
Catecholamines
PGE2-induced release from cultured chromaffin cells 2315
secretion and synthesis in adrenal medullary cells, effect of sea urchin toxin 1779
Cathepsin B
in liver and kidney, inhibition by peptidyl fluoromethyl ketones 1201
Cations
effect on adenosine A2 receptors 2365
multispecific uptake system in liver 2323
transport in mammary tissue, effect of salicylate 645
Cepharanthine
effect on arachidonic acid liberation in mast cells 45
Cerium
effect on cyt P4502a-4/5 expression in liver and kidney 1269
CGP 12,177A
characterization in liver plasma membranes 2333
CGP 20712A
effect on iodocyanopindolol binding in adipose tissue 681
CGS 21680
binding to adenosine A2 receptors in striatum, ion effects 2365
Chalcone
inhibition of glutathione reductase 1603
Chelators
in vivo iron mobilization 1023
Chemoattractants
induced respiratory burst in neutrophils, effect of sydonimines 637
Chinese hamster lung cells
adriamycin resistant and radiation-sensitive lines 1859, 1869
5,11-dimethyl-5H-indolo(2,3-b)-quinoline toxicity 2149
effect of Servier 9788 1707
Chinese hamster ovary cells LR73MDR 509
Chlorambucil
cytotoxicity, DNA crosslinking and DNA sequence selectivity 59
DNA adducts 571
1-Chloro-2,4-dinitrobenzene
conjugation by glutathione S-transferase, effect of dicumarol 921
8-(4-Chlorophenyl)thio-cyclic AMP
inhibition of phosphodiesterase V_A 2303
Chloroquine
accumulation in Plasmodium falciparum 1317
effect on taurocholate-stimulated biliary excretion of horseradish peroxidase 1683
Chlorpromazine
effect on cyt P450s in liver 1219
effect on platelet phosphoinositide metabolism 2013
Cholesterol
biliary secretion, effect of cyclosporin A 1105
effect on membrane actions of ethanol 769
Cholesterol 7α-hydroxylase mRNA
in Hep G2 cells, effect of glutathione 1475
Chondrocytes
binding of oxime acetylcholinesterase reactivators to proteoglycans 1927
Chondroprotective drugs
effect on metalloproteinases 1549
Chromaffin cells
catecholamine release by PGE2 2315
cyclic AMP metabolism in 2105
Chromanoxyl radical
reduction by dihydrolipoic acid 1637
Chrysene quinone
reduction by liver dihydrodiol dehydrogenase 341

CI-921
oxidation by myeloperoxidase 1731
CI-972
in vitro and in vivo activities 996
Ciclopofen
effect on peroxisomal palmitoyl-CoA ligase 261
Cinnarizine
oxidative metabolism in liver microsomes 1471
Ciprofibrate
effect on peroxisomal palmitoyl-CoA ligase 261
Cisplatin
effect on gene expression in CV-1 cells 107
nephrotoxicity, role in lipid peroxidation 1193
resistant lung squamous carcinoma cell line, reduced drug accumulation in 394
toxicity in LLC-PK_1 cells, effect of ebselen 382
Citralopram
effect on central adrenergic transmission 1067
Clonidine-displacing substances
in peripheral tissues and serum 733
Clopidogrel
hepatic metabolism 527
Clotrimazole
modulation of hepatic cyt P450s in Syrian and Chinese hamsters 2266
c-myc RNA
in HL-60 cells, effect of 3-deaze-(±)-aristomycin 1283
CoA
in liver mitochondria, effect of ibuprofen enantiomers 1291
CoA ligase
in liver microsomes, formation of 2-arylpropionyl-CoA thioesters 2415
Cobalt protoporphyrin
effect on enalapril hepatotoxicity 1803
Coformycin
inhibition of adenosine deaminase 1697
Colchicine
effect on dopamine synthesis in kidney 1883
Collagenase
effect of chrondroprotective drugs 1549
Colon
phenylethanolaminotetralines compete with dihydroalprenolol binding 665
Colon tumor cells
aniline mustard toxicity 59
DT-diaphorase levels and sensitivity to quinone-based drugs 409
effect of fatty acid conjugates of 2'-deoxy-5-fluorouridine 149
effect of Servier 9788 1707
effect of SRI 62-834 819
effect of woodfruticosin 1961
Compound 48/80
induced arachidonic acid liberation in mast cells, effect of bisoclaurine alkaloids 45
Concanavalin A
induced thymocyte proliferation,
Concanavalin A(contd.)
effect of staurosporine 1563
Corn oil
effect on UDP-glucuronosyltransferase in liver 335
Cortisol
substance P-induced secretion 1357
COS-1 cells
folate receptor characteristics 1898
Coumarin
interaction with reactive oxygen species 205
toxicity in hepatocytes, effect of serum-free medium 1461
Coumarin 7-hydroxylase
in liver
effect of cerium 1269
hamster, effect of clotrimazole 2266
Cryopreserved liver cells
metabolism in 309
Cumeme hydroperoxide
induced cell injury, effect of cyclosporin A 1995
reduction by glutathione peroxidase, effect of dicumarol 921
CV-1 cells
cisplatin and gene expression 107
α-Cyano-4-hydroxycinnamate
effect on fluorescein uptake in renal tubules 2213
Cyclic nucleotide phosphodiesterases
in adrenal medullary cells, regulation of cyclic AMP metabolism 2105
in aortic smooth muscle, regulation of DNA synthesis 857
in brain, effect of methylparaben 1053
inhibition by 8-(4-chlorophenyl)thiocyclic AMP 2303
in pancreatic islets, effect of cyclosporin A 359
Cyclic nucleotide phosphodiesterase inhibitors
inhibition of smooth muscle cell proliferation 857
Cycloheximide
inhibition of cyclooxygenase product formation 955
inhibition of mast cell 5-HT release 659
Cyclooxygenase
in monocytes, regulation via protein synthesis 955
Cyclophosphamide
effect on glucuronidation and lipid peroxidation in liver 747
Cyclosporin A
effect on cyclic AMP system in pancreatic islets 359
inhibition of biliary lipid and protein secretion 1105
prevention of hepatotoxic effects of 1-methyl-4-phenylpyridinium 833
protection against prooxidant-induced cell killing 1995
Cypla-1 gene expression
in cultured mouse hepatocytes 51
Cysteine
effect on glutathione and adenosine 3'-phosphate 5'-phosphosulfate syntheses in hepatocytes 447
induced generation of nitric oxide

Cysteine(contd.)
from furoxans 1149
in kidney, depletion by acetaminophen during aging 129
Cytarabine
induced hiatamine release from mast cells 533
Cytochalasin B
effect on dopamine synthesis in kidney 1883
Cytochrome b5
in liver microsomes, effect of perfluoro fatty acids 1183
Cytochrome P450
in brain microsomes, human, regional differences 1223
enalapril bioactivation 1803
estradiol metabolism in human liver 1745
in hepatocytes, effect of serum-free medium 1461
in liver microsomes
6-aminochrysene activation 913
cinnarizine metabolism 1471
effect of ethylbenzene 1171
hamster, effect of clotrimazole 2266
effect of interleukin-6 137
effect of perfluoro fatty acids 1183
effect of phenothiazines 1219
SR 4233 bioactivation 251
in liver parenchymal cells, effect of cryopreservation 309
in lung
human, monoclonal antibodies 183
effect of liposome-associated α-tocopherol on paraquat-induced changes 1811
Cytochrome P450 1A1
in hepatocytes, effect of PCBs 455
in liver microsomes, suicide inhibitors 787
Cytochrome P450 2a-4/5
expression in liver and kidney, effect of cerium 1269
Cytochrome P450 2B
in liver microsomes
inhibition and induction by promazine and chlorpromazine 1219
phenobarbital induction, strain and species differences 1651
suicide inhibitors 787
Cytochrome P450 2B RNA
expression in lung and liver, effect of ethanol during pregnancy 797
Cytochrome P450 2C11
in liver microsomes, benzo(a)pyrene biotransformation 1977
Cytochrome P450 2D
in liver microsomes, effect of interleukin-1α on activity and gene expression 1669
substrate structure-activity relationship 2089
Cytochrome P450 2D6
human, in yeast 617
Cytochrome P450 2E1
2,2,2-trifluoroethanol metabolism in liver 1829
Cytochrome P450 2E RNA
expression in lung and liver, effect of ethanol during pregnancy 797
Cytochrome P450 3A
in liver
human, effect of age and gender 275
mediated bioactivation of carbamazepine 2307
phenobarbital induction, strain and species differences 1651
substrate structure-activity relationship 2089
Cytochrome P450 4A mRNA
in liver, suppression mediated by interferon inducer 604
Cytochrome P450 c17
in testes microsomes, inhibition by ketoconazole 2371
Cytochrome $P450_{14DM}$
in yeast, interaction with AFK-108 1701
Cytochrome P450 reductase
in liver microsomes, SR 4233 bioactivation 251
Cytokines
production in HL-60 cells, effect of diethyldithiocarbamate 365
Cytoskeleton disrupter compounds
effect on dopamine synthesis in kidney 1883

Dansylsarcosine
binding sites on albumins 873
Dapsone
peroxidase inhibition 553
Daunomycin
redox activation in erythrocytes 1535
3-Deaza-(±)-aristeromycin
effect on steady state levels of c-myc RNA in HL-60 cells 1283
9-Deazaguanine analogues
inhibitors of purine nucleoside phosphorylase, in vitro and in vivo activities 996
Debrisoquine 4-hydroxylase cyt P450
human, in yeast 617
Debrisoquine monooxygenase
in liver, effect of interleukin 1α 1669
Delphinidin chloride
inhibition of glutathione reductase 1603
Deltorphin
δ-opioid receptor binding 1687
4-Demethoxy-daunorubicin
interaction with BSA, effect of pH 2347
2'-Deoxyadenosine
inhibition of MOLT-4 cell growth, effect of adenosine deaminase inhibitors 1697
2'-Deoxyasenosine-5'-triphosphate analogues
inhibition of FIV reverse transcriptase 1375
2'-Deoxycoformycin/deoxyadenosine
inhibition of repair of bleomycin-induced DNA damage 2229
Deoxycytidylate deaminase
in leukemia cells, modulation 1819
3'-Deoxy-2',3'-didehydrothymidine
cleavage by E.coli thymidine phosphorylase 199

2'-Deoxy-5-fluorouridine
fatty acid conjugates, as antitumor drugs 149
5'-Deoxy-5'-((2-hydrazinoethyl)-methylamino)adenosine
inhibition of S-adenosylmethionine decarboxylase in Trypanosoma brucei brucei 905
Deoxyribonucleic acid
bleomycin-induced damage 1255
inhibition of repair by 2'-deoxycoformycin 2229
chlorambucil adducts 571
crosslinking ability of aniline mustards 59
GR63178A binding 433
H_2O_2-histidine induced damage, effect of glutamine 2418
polyamidine binding 1985
quinone induced single strand breaks 215
synthesis in aortic smooth muscle, inhibition by cyclic AMP phosphodiesterase inhibitors 857
synthesis in hepatocytes, effect of hepatocyte growth factor 1037
synthesis inhibition by purine and pyrimidine monoadducts 1123
synthesis in lung, effect of difluoromethylornithine 965
Deoxyribonucleic acid polymerases
synthesis of DNA containing monoadducted purines and pyrimidines 1123
Deoxyribonucleic acid topoisomerase II
5,11-dimethyl-5H-indolo(2,3-b)-quinoline as a targeting agent 2149
effect of GR63178A 433
inhibition by woodfruticosin 1961
in mitoxantrone resistant leukemia P388 cells 937
Deoxyribonucleic acid topoisomerase II inhibitors
antitumor activity 1961
Deoxythymodine analogues
inhibition of poly(ADP-ribose) polymerase 947
Deoxyuridine analogues
inhibition of poly(ADP-ribose) polymerase 947
(-)Deprenyl
effect on superoxide dismutase and catalase in brain and liver 2185
Desferrioxamine
effect on ethoxyresorufin O-deethylase induction by Aroclor 1254 in hepatocytes 455
in vivo iron mobilization 1023
Desipramine
effect on central adrenergic transmission 1067
Deuterium isotope effects
microsomal demethylation of N,N-dimethylbenzamides 651
Development
epoxide hydrolase in liver 815
effect of fasting on glutathione in liver and lung 1489
Dexamethasone
effect on apoptosis in thymocytes 2131
effect on carbamazepine metabolism
Dexamethasone(contd.)
in liver microsomes 2307
inhibition of EGR-1 and NF-$_k$B gene expression 1569
effect on testosterone metabolism in cultured hepatocytes 1523
Diabetes
alloxan induced, protection against 2111
effect of molybdate + H_2O_2 or tungstate + H_2O_2 on glucose transport in adipocytes 174
effect of oral hypoglycaemic agents on platelet functions 687
Diamide
effect on protein S-thiolation in endothelial cells 1757
Diamine oxidase
inhibition by aziridinylalkylamines 1229
1,3-Diaminopropane
aziridinyl derivatives, inhibition of diamine oxidase 1229
cis-Diamminedichloroplatinum(II)
effect on gene expression in CV-1 cells 107
resistant lung squamous-carcinoma cell line, reduced drug accumulation 394
toxicity in LLC-PK_1 cells, effect of ebselen 382
Diarylsulfonylureas
effect on mitochondria 2387
Diazepam
binding in brain, effect of imidazo(1,2-b)pyridazines 1555
binding to HSA variants 1515
effect on drug binding to albumins 873
effect on Pk 11195 binding in lymphocytes and lymphoma cells 269
Diazinon
altered L-tryptophan metabolism in mice 2243
Diaziquone
diaphorase-induced alkylating activity 1625
1,1-Dibenzyl-3-phenyl-2-thiourea
oxidation in mammalian tissues 2029
2,2'-Dicarbomethoxylamino-5,5'-dibenzimidazoyl ketone
effect on antioxidant defenses in A.viteae and mastomys tissues 727
N-(3,4-Dichlorobenzyl)amiloride
effect on atrial muscle 425
Dichloromethane diphosphonate
cytotoxicity in Dictyostelium 2157
S-(1,2-Dichlorovinyl)-L-cysteine
induced release of mitochondrial Ca^{2+} and cytotoxicity in renal cells 1131
Dictyostelium discoideum
cytotoxicity of pyrophosphate analogues 2157
Dicumarol
inhibition of glutathione transferases and glutathione peroxidase II 921
N,N'-Dicyclohexyl carbodiimide
effect on SCH23390 binding in brain 325
Didanosine

Didanosine
effect on erythropoietic receptor 1009
2',3'-Dideoxy-3'-thiacytidine
cytotoxicity of enantiomers on human bone marrow progenitor cells 1921
Dietary fat
effect on paracetamol hepatotoxicity 1303
effect on UDP-glucuronosyltransferase in liver 335
3,5-Diethoxycarbonyl-1,4-dihydrocollidine
effect on PK11195 binding in liver mitochondria 1159
8-(N,N-Diethylamino)octyl 3,4,5-trimethoxybenzoate
effect on rat atrial muscle 425
Diethyldithiocarbamate
regulation of cytokine expression in HL-60 cells 365
Diethyl esters of glyoxalase inhibitors
anti-tumor effects 2357
1,2-Diethyl-3-hydroxypyrid-4-one
in vivo iron mobilization 1023
Diethyl maleate
effect on enalapril hepatotoxicity 1803
effect on hepatobiliary transport of antimony and bismuth 1275
2',2'-Difluorodeoxycytidine
effect on deoxycytidylate deaminase in leukemia cells 1819
Difluoromethylornithine
inhibition of DNA synthesis in lung 965
2,7-Difluorospirofluorene-9,5'-imidazolidine-2',4'-dione
effect on urinary excretion of D-glucaric acid and D-glucuronic acid 231
Dihydroalprenolol
binding in colon, effect of phenylethanolaminotetralines 665
Dihydrodiol/3α-hydroxysteroid dehydrogenase
in liver, quinone reduction and redox cycling 341
Dihydroflavonol
inhibition of glutathione reductase 1603
Dihydrolipoic acid
antioxidant activity 1637
Dihydropyridine binding sites
in heart, effect of G protein 1680
1,4-Dihydropyridines
effect on calcium uptake by liver plasma membrane vesicles 1214
cytoprotective effect against oxidized LDL 2379
1α,25-Dihydroxycholecalciferol
effect on breast cancer cell growth 693
7,8-Dihydroxyflavone
effect on lysosomes subjected to stress 1243
1,25-Dihydroxyvitamin D3
effect on growth of breast cancer cells 2273
Diltiazem
effect on Na^+,K^+-ATPase in kidney 1529
effect on calcium uptake by liver
Diltiazem(contd.)
plasma membrane vesicles 1214
protection against hypoxic liver injury 2207
2,3-Dimethoxy-1,4-naphthoquinone
induced DNA single strand breaks 215
3,5-Dimethyl-N-acetyl-p-benzoquinone imine
induced cell injury, effect of cyclosporin A 1995
N,N-Dimethylbenzamides
demethylation by liver microsomes 651
1,2-Dimethyl-3-hydroxypyrid-4-one
in vivo iron mobilization 1023
5,11-Dimethyl-5H-indolo(2,3-b)quinoline
DNA topoisomerase II targeting agent 2149
N,N-Dimethylnitrosamine N-demethylase
in liver, effect of ethylbenzene 1171
Dimethyl sulfoxide
effect on P-glycoprotein expression in cultured hepatocytes 2259
5,6-Dimethyl-xanthenone-4-acetic acid
stimulation of macrophage tumoricidal activity 192
4-Diphenylacetoxy-1-(2-chloroethyl) piperidine mustard
inactivation of brain muscarinic receptors 285
1,3-Diphenylthiourea
oxidation in mammalian tissues 2029
Docosahexaenoic acid
2'-deoxy-5-fluorouridine conjugate, antitumor activity 149
Docosanoic acid
in thrombocytes from schizophrenic patients, effect of neuroleptics 317
DOPA
metabolism in fetal brain cell cultures 99
Dopamine
sulfoconjugated, deconjugating activity in dog organs 2263
synaptosomal uptake, effect of trolox C and Ginkgo biloba extract 2395
synthesis in kidney, effect of colchicine and cytochalasin B 1883
Dopamine D1 receptor
associated adenylyl cyclase in striatum, reserpine-induced down regulation 83
structure of ligang-binding site in brain 325
Dopamine D2 receptor
in striatum, dissociation from adenylyl cyclase 73
Doxorubicin
induced histamine release from mast cells 533
effect on membrane phospholipid homeostasis 1139
quinone reduction in vivo in tumor tissue 2165, 2175
resistant leukemia P388 cells, topoisomerase II and P-glycoprotein in 937
Doxorubicin nanospheres
drug resistance reversion by 509
Doxycycline
inhibition of phospholipase A2 1165

DPDPE
δ-opioid receptor binding 1687
Drug targeting in liver 2117
DSTBULET
δ-opioid receptor binding 1687
DT-diaphorase
CB 1954 reduction and cytotoxicity 1739, 2289, 2297
in human tumor cells, correlation with sensitivity to quinone bioreactive drugs 409
induced alkylating activity of diaziquone 1625
in liver, effect of perfluoro fatty acids 1183
in mammary carcinoma, role in doxorubicin quinone reduction 2175
novel co-factors for 25

EB 108D
antitumor effects *in vivo* and *in vitro* 2273
Ebselen
effect on adriamycin toxicity in mice 839
antioxidant against lipid peroxidation 39
effect on cisplatin toxicity in LLC-PK_1 cells 382
EGb 761
effect on synaptosomal amine uptake 2395
EGR-1 gene
effect of dexamethasone on expression 1569
Eicosanoid
metabolism in monocytes, effect of cycloheximide 955
Ellipticine analog
DNA topoisomerase II targeting agent 2149
Enalapril
hepatotoxicity 1803
β-Endorphin
biosynthesis 843
Endothelial cells
arterial
effect of cell density on endothelin release 851
effect of glutathione on Δ^{12}-PGJ_2 induced protein synthesis 1597
thrombin-induced endothelin-1 release 2409
liver, carboxylesterases in 827
venous
nitrovasodilators and platelet-activating factor synthesis 223
protein *S*-thiolation during oxidative stress 1757
Endothelin-1
effect of cell density on release 851
reduction of lipoprotein lipase activity in adipocytes, effect of BQ-123 1431
thrombin induced biosynthesis and release in endothelial cells 2409
Endothelin receptor antagonist BQ-123
suppressive effect on endothelin-1-induced reduction of lipoprotein lipase activity 1431
Enkephalin analogs
δ-opioid receptor binding 1687
EO9
sensitivity of human tumor cells and levels of DT-diaphorase 409
Eosinophil peroxidase
inhibition by dapsone 553
Epidermal growth factor
effect on P-glycoprotein expression in cultured hepatocytes 2259
Epidermoid carcinoma cells KB-3-1
effect of Servier 9788 1707
Epirubicin
effect on membrane phospholipid homeostasis 1139
Epithelial cells
polarized efflux of BCECF 417
Epoxide hydrolase
in liver cytosol
developmental and adrenal regulation 815
effect of perfluoro fatty acids 1183
in liver microsomes
developmental and adrenal regulation 815
effect of perfluoro fatty acids 1183
phenobarbital induction 1651
Epstein-Barr virus nuclear antigen
binding to target DNA fragment, effect of polyamidines 1985
Erythrocytes
N-acetyltransferase in 1099
effect of beprindil on sodium pump 1529
redox activation of daunomycin 1535
Erythroid burst-forming units
effect of 2',3'-dideoxy-3'-thiacytidine enantiomers 1921
Erythroid cells
inhibition of differentiation by N^6-methyladenosine 927
Erythromycin *N*-demethylase
in hepatocytes, effect of serum-free medium 1461
in liver microsomes, human, effect of age and gender 275
Erythropoietin receptor
effect of zidovudine 1009
Escherichia coli
captan inhibition of RNA polymerase 2251
Estradiol
effect on cadmium induction of renal ornithine decarboxylase 721
metabolism by cyt P450 3A4/3A5 in human liver 1745
Estrogen receptor positive tissues
17α-Z-iodovinylestradiol distribution 741
Ethanol
effect on benzodiazepine receptors in brain and peripheral organs 1335
effect on benzo(a)pyrene microsomal biotransformation in rat tissues 1977
effect on expression of cyt P450 2E and 2B RNAs in nonpregnant, pregnant and fetal hamsters 797
effect on heart antioxidants 1495

Ethanol(contd.)
effect on hepatic gluconeogenesis 1617
membrane actions, effect of cholesterol 769
metabolism in brain homogenates by catalase-H_2O_2 system 93
Ethosuximide
effect on alloxan toxicity 2111
7-Ethoxycoumarin O-deethylase
in liver microsomes
effect of ethylbenzene 1171
effect of interleukin-1α 1669
effect of interleukin-6 137
7-Ethoxyphenoxazone
deethylation in liver, effect of arylacetylenes 787
Ethoxyresorufin O-deethylase
in hepatocytes
effect of PCBs 455
effect of serum-free medium 1461
in liver microsomes
effect of cerium 1269
effect of promazine and chlorpromazine 1219
Ethylbenzene
mediated cyt P450 induction in male and female rats 1171
Ethylmorphine N-demethylase
in liver microsomes, effect of interleukin-6 137
Ethylphenylhydantoin
induction of hepatic drug-metabolizing enzymes 1651
Ethynylanthracenes
inhibition of cyt P450 1A1 and 2B1 in liver 787
17α-Ethynylestradiol
estrogenic activity 1717
Ethynylnaphthalenes
inhibition of cyt P450 1A1 and 2B1 in liver 787
Ethynylphenanthrenes
inhibition of cyt P450 1A1 and 2B1 in liver 787
Ethynylpyrenes
inhibition of cyt P450 1A1 and 2B1 in liver 787
Etretinate
binding to plasma proteins and erythrocytes 1891
β-Eudesmol
inhibition of Na^+,K^+-ATPase 373
inhibition of K^+-p-nitrophenyl phosphatase 993
Evening primrose oil
effect on rabbit plasma high density lipoprotein 1085
Exercise
effect on xenobiotic biotransformation enzymes 121

Fasting
effect on glutathione system in liver and lung 1489
effect on N-hydroxy-acetylaminofluorene cytotoxicity in liver 2339
effect on plasma fibrinogen in rats 2086
effect on sensitivity of hepatic harmol glucuronidation to hypoxia 1887
Fat
dietary, effect on paracetamol hepatotoxicity 1303
Fatty acids
2'-deoxy-5-fluorouridine conjugates, as antitumor drugs 149
effect on $GABA_A$ receptor ligand binding 11
heart lipids, effect of antitumor drugs 1139
in liver, effect of dietary lipid 335
polyunsaturated, in thrombocytes from schizophrenic patients, effect of phenothiazine and thioxanthene 317
Feline immunodeficiency virus
inhibition of reverse transcriptase by dATP analogs 1375
Fenaprofen
effect on peroxisomal palmitoyl-CoA ligase 261
Ferrocene
loaded rats, iron mobilization by chelators 1023
Fetal hamster
expression of cyt P450 2E and 2B RNAs in liver and lung 797
Fetal rat
5-fluoro-DOPA and 6-fluoro-DOPA metabolism in cultured brain cells 99
Fibrinogen
in plasma, effect of fasting 2086
Fibroblast growth factor receptors 1233
Fibroblastoid cells V79
carbonyl reduction in 2005
Fibroblasts
binding of oxime acetylcholinesterase reactivators to proteoglycans 1927
cytotoxicity of ascorbic acid and ascorbic acid 2-O-α-glucoside 2191
Fisetin
effect on cyclic AMP phosphodiesterase and lipolytic activity in adipocytes 1307
effect on lysosomes subjected to stress 1243
Fish oil
effect on UDP-glucuronosyltransferase in liver 335
Flavin-containing monooxygenases
neurotoxins as substrates 2079
thiocarbamides selective for 2029
Flavonoids
effect on cyclic AMP phosphodiesterase and lipid mobilization in adipocytes 1307
inhibition of glutathione reductase 1603
effect on lysosomes subjected to stress 1243
Flumazenil
binding in brain, effect of imidazo (1,2-b)pyridazines 1555
Flunitrazepam
binding in brain
effect of free fatty acids 11
temperature and anion dependence 1297
Fluorescein
uptake in renal tubules, effect of gluconeogenesis inhibitors 2213

Fluorescence anisotropy spectroscopy
membrane actions of ethanol 769
5(6)-Fluoro-DOPA
metabolism in fetal brain cell cultures 99
2-Fluoro-17α-ethynylestradiol
oxidative dehalogenation *in vivo* 1717
Fluoromethyl ketones
inhibition of cathepsin B and treatment of arthritis 1201
6-Fluoro-DL-tryptophan
albumin binding and brain uptake, effect of L-tryptophan 2082
5-Fluorouracil
prodrugs for selective delivery to tumor cells 149
Fluoxetine
effect on central adrenergic transmission 1067
Fluphenazine
oxidation by peroxidase-H_2O_2 889
Flurbiprofen-CoA ligase
in liver 2415
Folate
binding to membrane folate receptors 1898
transport in intestine 1839
Folate receptors
folate and antifolate binding, stereospecificity 1898
Formycin B
transport in P388 cells, effect of nitrobenzylthioinosine derivatives 1577
N-Formyl-methionyl-leucyl-phenylalanine
induced superoxide anion production, effect of molsidomine 637
Forskolin
effect on DNA synthesis in aortic smooth muscle 857
stimulated cyclic AMP production in PBMC, effect of albumin 351
Free radicals
in heart, effect of ethanol 1495
Friend cells
inhibition of differentiation by N^6-methyladenosine 927
Fructose
effect on *N*-hydroxy-acetylaminofluorene cytotoxicity in liver 2339
Furoxans
thiol-mediated generation of nitric oxide 1149
Fustin
effect on cyclic AMP phosphodiesterase in adipocytes 1307

Galactosyl conjugates
uptake by rat liver 2117
Gallium
inhibition of ribonucleotide reductase M2 subunit 2403
Gammalinolenic acid
effect on rabbit plasma high density lipoprotein 1085
Gastric acid secretion
inhibition by cassigarol A 33
effect of piceatanol 1947
Gastric fundus
clonidine-displacing substance in 733
GBLD compounds
benzodiazepine receptor ligands 1555
Gelatinase
granulation tissue, inactivation of substance P 1773
Gene expression
CV-1 cells, effect of cisplatin 107
Genisten
effect on cyclic AMP phosphodiesterase in adipocytes 1307
effect on neutrophil response to granulocyte colony stimulating factor 1045
Genomic pharmacology 1233
Gentamicin B and C_{1A}
molecular hydrophobicity potential 1967
Gestodene
effect on carbamazepine metabolism 2307
Ginkgo biloba extract
effect on synaptosomal amine uptake 2395
Glibenclamide
effect on platelet function 687
Gliclazide
effect on platelet function 687
Glimepiride
effect on platelet function 687
Glucagon
effect on gluconeogenesis in liver of ethanol-treated rats 1617
D-Glucaric acid
urinary excretion, effect of aldose reductase inhibitors 231
Glucocorticoids
induction of apoptosis in thymocytes 2131
regulation of epoxide hydrolase in liver 815
regulation of testosterone metabolism in cultured hepatocytes 1523
Glucocorticoid receptor
effect on phorbol ester-induced monocyte differentiation 1569
Gluconeogenesis
in liver
effect of acute alcohol intoxication 1617
effect of ryanodine 413
Gluconeogenesis inhibitors
effect on fluorescein uptake in renal tubules 2213
Glucose
in blood, inhibition of alloxan toxicity 2111
metabolism in macrophages, effect of adrenaline 2235
metabolism in rats, effect of benfluorex 379
stimulated cyclic AMP production in pancreatic islets, effect of cyclosporin A 359
transport in adipocytes, effects of molybdate + H_2O_2 or tungstate + H_2O_2 174
Glucuronic acid
albumin binding 1661
urinary excretion, effect of aldose reductase inhibitors 231
Glucuronidation
in liver

Glucuronidation
in liver
effect of cadmium 2139
effect of cyclophosphamide and adriamycin 747
effect of malaria infection 1879
Glutamate decarboxylase
in pancreas 1
Glutamine
effect on L-histidine-mediated enhancement of H_2O_2 cytotoxicity 2418
γ-Glutamylcysteine
intracerebroventricular administration, effect on glutathione in brain 895
γ-Glutamyltransferase
biliary secretion, effect of cyclosporin A 1105
τ-Glutamyltranspeptidase
in liver, effect of fasting 1489
Glutathione
ascorbic acid interaction 1905
biliary excretion, effect of antimony and bismuth 1275
in brain, effect of intracerebroventricular γ-glutamylcysteine 895
2-bromocarboxylic acid conjugation 1249
effect on cholesterol 7α-hydroxylase mRNA in HepG2 cells 1475
effect on enalapril hepatotoxicity 1803
fate in endothelial cells during oxidative stress 1757
in hepatocytes, effect of hydroquinones 1059
in kidney, depletion by acetaminophen during aging 129
inhibition Δ^{12}-PGJ_2-induced protein synthesis in aortic endothelial cells 1597
in liver, effect of fasting 1489
in lung
effect of fasting 1489
effect of liposome-associated α-tocopherol on paraquat-induced changes 1811
in melanoma cell nuclei, depletion by oxidative stress 1383
effect on mutagenicity of RSU-1069 and RSU-1131 in V79-4 cells 1341
role in protection from heat and oxidative stress 2126
synthesis in hepatocytes, effects of cysteine and acetaminophen 447
Glutathione S-conjugate diester deriv
antitumor effects 2357
Glutathione peroxidase
in Acanthocheilonema viteae and its host tissue, effect of compound 82/437 727
in liver
effect of dicumarol 921
effect of fasting 1489
effect of perfluoro fatty acids 1183
Glutathione reductase
inhibition by flavonoids 1603
in liver, effect of fasting 1489
Glutathione S-transferase
in heart, effect of ethanol 1495
Glutathione S-transferase(contd.)
in hepatocytes, effect of altered calcium homeostasis in expression of 2099
in intestine, effect of dietary butylated hydroxyanisole 596
in liver
2-bromocarboxylic acid conjugation 1249
cryopreserved 309
effect of dicumarol 921
effect of dietary butylated hydroxyanisole 593
effect of exercise 121
in skin, LTA_4 conjugation to LTC_4 2047
Glyburide
regulation of ATP-sensitive K^+-channels 1843
Glyceryl trinitrate
metabolism by J774 macrophage cells 17
Glycogenolysis
in liver, activation by methotrexate 761
Glycyl-leucyl-phenylalanine
from milk, effect on PMN oxidative metabolism and polyphosphoinositide breakdown 673
Glyoxalase inhibitors
diethyl esters, effect on HL-60 cells 2357
Glyoxalase system
cell growth 1953
Gold complexes
effect on PMN activation 1091
Gpp(NH)p
effect on CGS 21680 binding to adenosine A2 receptor in striatum 2365
G-protein
effect on dihydropyridine binding in heart 1680
in GH3 pituitary tumor cells, hormone regulation 471
in pancreatic islets, effect of cyclosporin A 359
stimulation of GTPase activity by polylysine 547
GR63178A
molecular pharmacology 433
Granulation tissue
gelatinase from, inactivation of substance P 1773
Granulocyte colony stimulating factor
neutrophil priming and modulation by protein kinase inhibitors 1045
Granulocyte macrophage colony forming cells
effect of 2',3'-dideoxy-3'-thiacytidine enantiomers 1921
Growth hormone
regulation of testosterone metabolism in cultured hepatocytes 1523
Guanine 5'-O-(3-thiotriphosphate)
effect on dihydropyridine binding in heart 1680
Guanosine
in plasma, effect of 9-deazaguanine analogs 996
Guanosine-3',5'-monophosphate
in brain, effect of methylparaben 1053

Guanosine-3',5'-monophosphate(contd,)
production in endothelial cells, effect of nitrovasodilators 223
Guanosine-3',5'-monophosphate phosphodiesterase
inhibition by 8-(4-chlorophenyl)thio-cyclic AMP 2303
Guanosine triphosphatase
activity of G-proteins, stimulation by polylysine 547
Guanosine triphosphate-binding protein
mediated phospholipase A2 activation, effect of biscoclaurine alkaloids 45
Guanylate cyclase
effect of furoxans 1149
Gunn rats
5-aminolevulinic acid synthase in liver mitochondria 1465

H-7
effect on neutrophil response to granulocyte colony stimulating factor 1045
protein kinase C inhibition 1325
Haemochromatosis
in vivo iron mobilization by chelators 1023
Haloperidol
splanchnic uptake and release in vivo 601
stereospecific reduction in human tissues 867
Halothane
topography of trifluoroacetylated protein antigens in liver from treated rats 621
Harmaline
inhibition of histamine N-methyl-transferase 989
Harmol
hepatic glucuronidation, effect of fasting on sensitivity to hypoxia 1887
Heart
adriamycin-induced lipid peroxidation, effect of PZ-51 839
effect of antitumor drugs on membrane phospholipid homeostasis 1139
effect of ethanol on benzodiazepine receptors 1335
effect of ethanol on free radical defense 1495
effect of furoxans on blood flow 1149
effect of G-protein on dihydropyridine binding 1680
regulation of ATP-sensitive K^+-channels 1843
effect of TMB8 on atrial muscle 425
Heat shock proteins
induction in human tumor cells and oxidative stress 2123
Δ^{12}-PGJ_2-induced synthesis in aorta endothelial cells, effect of glutathione 1597
Heme oxygenase
induction in human tumor cells 2123
Δ^{12}-PGJ_2-induced synthesis in aorta endothelial cells, effect of glutathione 1597
Heme/phenylbutazone
damage to lipids and α1-antiproteinase
Heme/phenylbutazone(contd.) 981
Hemoglobin
dependent lipid peroxidation, effect of phenylbutazone 981
Heparin
antioxidant action in vivo? 188
Hepatocyte growth factor
mechanisms of hepatocyte proliferation 1037
Hepatocytes, cultured
effect of altered calcium homeostasis on glutathione S-transferase isoenzymes in 2099
growth hormone regulation of testosterone metabolism 1523
hepatocyte growth factor induced proliferation 1037
induction of cyt P450 activities by PCBs 455
modulation of multidrug resistance gene expression 2259
protection by cyclosporin A of 1-methyl-4-phenylpyridinium toxicity 833
regulation of cypla-1 gene expression 51
effect of serum-free medium on cyt P450-dependent metabolism and toxicity 1461
Hepatocytes, isolated
bleomycin genotoxicity 1255
cadmium-decreased glucuronidation 2139
catalytic disposition of 3'-azido-2', 3'-dideoxyuridine 973
cyclosporin A protects against prooxidant-induced injury 1995
cytotoxic effects of hydroquinones 1059
glutathione and adenosine 3'-phosphate 5'-phosphosulfate syntheses in 447
N-hydroxy-acetylaminofluorene toxicity 2339
effect of ibuprofen enantiomers on metabolism 1291
iron binding 1367
multispecific uptake system for cationic drugs 2323
effect of palmitate and benzoate on chiral inversion of ibuprofen 1468
quinone-induced DNA single strand breaks 215
α-tocopherolquinone reduction in 489
Hepatoma cells
c2REV7, carbonyl reduction in 2005
HepG2, effect of glutathione on cholesterol 7α-hydroxylase mRNA 1475
Hesperetin
lipolytic activity in adipocytes 1307
5-HETE
formation in PMNs, effect of alkylbenzoylacrylic acids 805
3,3',4,4',5,5'-Hexabromobiphenyl
effect on cyt P450 activities in hepatocytes 455
3,3',4,4',5,5'-Hexachlorobiphenyl
effect on cyt P450 activities in hepatocytes 455
Hexacosanoic acid
in thrombocytes from schizophrenic

Hexacosanoic acid(contd.)
patients, effect of neuroleptics 317
Hexokinase
in macrophages, effect of adrenaline 2235
High density lipoprotein
in plasma, effect of gammalinolenic acid on subfractions 1085
Histamine
induced differentiation in HL-60 cells 1115
release from lung pleura 1609
release from mast cells
induced by antineoplastic drugs 533
effect of MY-1250 1211
stimulated cyclic AMP production in PBMC, effect of albumin 351
turnover in brain, effect of thioperamide 1261
Histamine-N-methyltransferase
in brain, inhibition by fragmants of 9-amino-1,2,3,4-tetrahydroacridine and by β-carbolines 989
Histamine H3 receptors
brain, in vivo occupancy 1261
Histidine
mediated enhancement of H_2O_2 cytotoxicity, effect of glutamine 2418
Hormone receptors 1233
Horseradish peroxidase
taurocholate-stimulated biliary excretion, effect of lysosomotropic agents 1683
Human immunodeficiency virus
effect of metalloporphyrin-ellipticine complexes 1675
substrate specificity of E.coli thymidine phosphorylase for pyridine nucleosides 199
Hydantoins
effect on alloxan toxicity 2111
Hydrogen peroxide
cytotoxicity, effect of glutamine on histidine-mediated enhancement of 2418
daunomycin-mediated fluxes in erythrocytes 1535
in macrophages, effect of adrenaline 2235
effect of protein S-thiolation in endothelial cells 1757
Hydroquinones
cytotoxic effects in hepatocytes 1059
N-Hydroxy-acetylaminefluorene
mitochondrial damage 2339
S-2-Hydroxyacylglutathiones
effect on HL-60 cells 1953
4-Hydroxybiphenyl-UDP-glucuronosyltransferase
in liver, monoclonal antibodies against 836
β-Hydroxybutyrate
in rat plasma, effect of pivampicillin 1226
6-Hydroxydopamine
induced dissociation of dopamine D2 receptor from adenylyl cyclase 73
1-Hydroxyethane-1,1-diphosphonate
cytotoxicity in Dictyostelium 2157
6-N-Hydroxylaminopurine
6-N-Hydroxylaminopurine
reduction to adenine by xanthine oxidase 1501
Hydroxyl radicals
scavenging by coumarins 205
9-(S)-(3-Hydroxy-2-phosphonomethoxypropyl)adenine
phosphorylation by AMP(dAMP)kinase from L1210 cells 2067
17α-Hydroxyprogesterone
processing in testes microsomes, effect of ketoconazole 2371
5-Hydroxytryptamine
release from mast cells, effect of cycloheximide 659
synaptosomal uptake, effect of trolox C and Ginkgo biloba extract 2395
5-Hydroxytryptamine 1Dβ receptor
human, $Thr^{355}Asn$ mutagenesis 1917
Hypertension
GABAergic system in brain, effect of propranolol 465
Hypochlorous acid
scavenging by coumarins 205
Hypoglycemic agents
effect on platelet function 687
Hypoxia
harmol glucuronidation in liver, effect of fasting 1887
induced liver injury, effect of diltiazem and TA 3090 2207
Ibuprofen
chiral inversion in hepatocytes, effect of palmitate and benzoate 1468
metabolic effects of enantiomers 1291
effect on microsomal CoA ligase 2415
effect on peroxisomal palmitoyl-CoA ligase 261
ICI 118,551
effect on iodocyanopindolol binding in adipose tissue 681
ICI 198,615
binding sites in human lung 1411
Idiosyncratic toxicity
carbamazepine 2307
Ifosfamide
induced histamine release from mast cells 533
Imidazo(1,2-b)pyridazines
benzodiazepine receptor ligands 1555
Indocyanine green
effect on hepatobiliary transport of antimony and bismuth 1275
Indomethacin
effect on BCECF efflux from epithelial cells 417
Indoprofen
effect on peroxisomal palmitoyl-CoA ligase 261
Inflammation
effect of anti-inflammatory peptides 519
effect of fluoromethyl ketones 1201
tetracyclines and phospholipase A2 1165
Inosine
in plasma, effect of 9-deazaguanine analogs 996

Inositol
effect on alloxan toxicity 2111
Inositol monophosphates
in brain, effect of antidepressants 1067
Inositol-1,4,5-trisphosphate
formation in endothelial cells, effect of thrombin 2409
in N1E-115 cells, effect of ATP 1479
Insulinomimetics
molybdate + H_2O_2 or tungsten + H_2O_2 174
Interferon inducer
suppression of hepatic cyt P450A mRNA 604
Interleukin-1
effect on cyt P450 IID activity and gene expression 1669
expression in HL-60 cells, effect of diethyldithiocarbamate 365
stimulation of phospholipase C in monocytes 715
Interleukin-1 receptor 1233
Interleukin-2
mitogenic response in thymocytes, effect of staurosporine 1563
Interleukin-2 receptor 1233
Interleukin-6
effect on cyt P450-dependent enzymes in rat 137
Intestine
BCECF efflux from epithelial cells 417
effect of dietary butylated hydroxyanisole on glutathione S-transferase 593
effect of ethanol on benzo(a)pyrene metabolism in microsomes 1977
exercise and xenobiotic biotransformation enzymes 121
folate and methotrexate transport 1839
monoclonal antibodies to carboxylesterase isoenzymes 171
Iodocyanopindolol
binding in adipose tissue 681
binding in liver plasma membranes, effect of β3-agonists 2333
4'-Iodo-4'-deoxydoxorubicin
interaction with BSA, effect of pH 2347
17α-Z-Iodovinylestradiol
tissue distribution in rat 741
Ipramidil
thiol mediated generation of nitric oxide from 1149
Iron
binding to hepatocytes 1367
effect on ethoxyresorufin O-deethylase induction by Aroclor 1254 in hepatocytes 455
in vivo mobilization by chelators in ferrocene-loaded rats 1023
Isatin analogs
inhibition of monoamine oxidase A and B 590
Ischaemia-reperfusion
chemiluminescence-HPLC assay of phosphatidylcholine hydroperoxide generated in liver 2412
Isepamicin
molecular hydrophobicity potential 1967
3-Isobutyl-1-methylxanthine
effect on cyclic AMP metabolism in chromaffin cells 2105
effect on cyclic AMP production in pancreatic islets, effect of cyclosporin A 359
effect on DNA synthesis in aortic smooth muscle 857
Isoflavonoids
inhibition of porcine 5-lipoxygenase 157
Isoprenaline
stimulated cyclic AMP production in PBMC, effect of albumin 351
Isopropyl N-(3-chloro-4-hydroxyphenyl) carbamate
cadmium-decreased glucuronidation 2139
Isotetrandine
effect on arachidonic acid liberation in mast cells 45

K252a
effect on thymocyte function 1563
Kaempferol
effect on lysosomes subjected to stress 1243
Kanamycin A/B
molecular hydrophobicity potential 1967
Kanechlor 500
induction of microsomal activation of 6-aminochrysene 913
Ketoconazole
inhibition of cyt P450c17 2371
effect on primaquine metabolism by human liver 587
Ketogenesis
in rat, effect of pivampicillin 1226
Ketone reductase
haloperidol reduction in human tissues 867
Ketoprofen
effect on peroxisomal palmitoyl-CoA ligase 261
Ketoprofen glucuronides
interaction with protein and serum albumin 291
Kidney
cadmium induction of ornithine decarboxylase 721
effect of calcium antagonists on Na^+,K^+-ATPase 1529
effect of cerium on enzyme activities 1269
cisplatin toxicity, role of lipid peroxidation 1193
effect of colchicine and cytochalasin B on dopamine synthesis 1883
S-(1,2-dichlorovinyl)-L-cysteine induced release of mitochondrial calcium 1131
effect of gluconeogenesis inhibitors on fluorescein uptake 2213
glutathione depletion by acetaminophen during aging 129
methionine synthase and AdoMet/AdoHyc ratio, effect of nitrous oxide 1349
effect of ochratoxin A on calcium uptake by microsomes 1401
thiopurine methyltransferase in 775

Kidney cells
LLC-PK1
S-(1,2-dichlorovinyl)-L-cysteine cytotoxicity 1131
effect of ebselen on cisplatin toxicity 382
MDCK, BCECF efflux from epithelial cells 417
Kininase
in platelets 479
KT-5720
effect on histamine-induced differentiation in HL-60 cells 1115
Kupffer cells
carboxylesterases in 827
Kutkoside
antioxidant properties 180
Kynurenic acid
urinary excretion, effect of diazinon 2243
Kynurenine formamidase
in liver, effect of diazinon 2243

Lactation
effect on iodocyanopindolol binding in adipose tissue 681
salicylate-induced cation fluxes in mammary tissue 645
S-D-Lactoylglutathione
antileukemic activity 1953
Lanosterol 14α-demethylase
in yeast, effect of AFK-108 1701
Leishmania species
synergism in vitro of lovastatin and miconazole 2199
Leukemia cells
CCRF-CEM, modulation of deoxycytidylate deaminase in 1819
HL-60
effect of 3-deaza-(±)-aristeromycin on c-myc RNA 1283
effect of diethyl esters of glyoxalase inhibitors 2357
histamine-induced differentiation 1115
effect of S-2-hydroxyacylglutathiones and monoether ester derivatives 1953
regulation of cytokine expression by diethyldithiocarbamate 365
K562
aniline mustard toxicity 59
drug resistance reversion by doxorubicin-nanospheres 509
quinone-induced DNA single strand breaks 215
effect of Servier 9788 1707
effect of tetra-p-amidinophenoxyneopentane 1985
L1210
chlorambucil-DNA adducts 571
phosphorylation of acyclic nucleotide analogs by AMP(dAMP) kinase 2067
L5178Y, effect of bleomycin + 2'-deoxycoformycin 2229
P388, mitoxantrone resistant, topoisomerase II and P-glycoprotein in 937
P388/ADR
drug resistance reversion by doxorubicin-nanospheres 509
Leukemia cells
P388/ADR(contd.)
effect of Servier 9788 1707
U-937
inhibition of EGR-1 and NF-κB gene expression by dexamethasone 1569
phorbol ester-induced monocytic differentiation 1569
Leukocytes
peroxidase inhibition by dapsone 553
Leukotriene A4
glutathione S-transferase dependent conjugation of LTC4 in skin 2047
Leukotriene B4
formation in PMNs, effect of alkylbenzoylacrylic acids 805
release from lung pleura 1609
Leukotriene C4
release from lung pleura 1609
Leukotriene E4
release from lung pleura 1609
Leukotriene receptor antagonist
ICI 198,615, binding in lung 1411
Leupeptin
effect on taurocholate-stimulated biliary excretion of horseradish peroxidase 1683
Ligand-activated nuclear receptors 1233
Lipid
dietary, effect on UDP-glucuronosyltransferase in liver 335
Lipid peroxidation
ebselen as an antioxidant 39
in heart
effect of antitumor drugs 1139
effect of ethanol 1495
in hepatocytes, Fe^{2+} mediated 1367
in kidney, role in cisplatin toxicity 1193
in liver
effect of adriamycin 755, 839
effect of antitumor drugs 1139
effect of boldine 1765
effect of coumarins 205
effect of cyclophosphamide and adriamycin 747
effect of perfluoro fatty acids 1183
effect of phenylbutazone + heme proteins 981
effect of picroliv, picroside-I and Kutkoside 180
effect of propofol 391
effect of PZ-51 839
in lung, paraquat induced, effect of liposome-associated α-tocopherol 1811
malonaldehyde as an indicator 985
Lipolysis
in adipocytes, effect of flavonoids 1307
Lipophosphoglycan
protein kinase C inhibition 1325
Lipopolysaccharide
induction of glyceryl trinitrate metabolism to nitric oxide in macrophages 17
effect on mixed function oxidase system 137
Lipoprotein
etretinate binding 1891

Lipoprotein(contd.)
effect of gammalinolenic acid 1085
Lipoprotein lipase
in adipocytes, effect of BQ-123 on ET-1-induced reduction of 1431
5-Lipoxygenase
in leukocytes, isoflavonoids as inhibitors 157
Lisinopril
inhibition of lung angiotensin converting enzyme 565
Lithocholate
inhibition of glutathione S-transferases and peroxidase 921
Liver
adriamycin induced lipid peroxidation 755
effect of PZ-51 839
alcohol and gluconeogenesis 1617
effect of antitumor drugs on membrane phospholipid homeostasis 1139
cadmium induction of ornithine decarboxylase 721
calcium uptake by plasma membrane vesicles, effect of 1,4-dihydropyridines 1214
effect of cerium on cyt P450 2a-4/5 expression 1269
characterization of β3-agonists in plasma membranes 2333
conjugate uptake, drug targeting 2117
developmental and adrenal regulation of epoxide hydrolase 815
effect of dietary butylated hydroxyanisole on glutathione S-transferases 593
disposition of steroidal muscle relaxants 1453
effect of ethanol on benzodiazepine receptors 1335
effect of ethanol on benzo(a)pyrene metabolism 1977
exercise and xenobiotic biotransformation enzymes 121
expression of cyt P450 2E and 2B RNAs, effect of ethanol during pregnancy 797
effect of fasting on glutathione in 1489
haloperidol reductase in 867
haloperidol uptake and release in vivo 601
heterogeneity of carboxylesterases 827
human, effect of age and gender on drug metabolism 275
hypoxia-indiced injury, effect of diltiazem and TA3090 2207
in vivo iron mobilization by chelators 1023
ischaemia-reperfusion injury 2412
metabolism in cryopreserved parenchymal cells 309
methionine synthase and AdoMet/AdoHyc ratio, effect of nitrous oxide 1349
monoclonal antibodies to carboxylesterase isoenzymes 171
multispecific uptake system for cationic drugs 2323
paracetamol toxicity 163
effect of perfluoro fatty acids 1183
primaquine metabolism 587
Liver(contd.)
propranolol metabolism 2281
effect of ryanodine 413
Lovastatin + miconazole
anti-leishmanial activity 2199
Low density lipoproteins
oxidation and cytotoxicity in lymphoid cells, effect of dihydropyridines 2379
Lung
anaphylactic mediator release from pleura 1609
angiotensin converting enzyme inhibition by lisinopril 565
effect of ethanol on benzo(a)pyrene metabolism 1977
expression of cyt P450 2E and 2B RNAs, effect of ethanol during pregnancy 797
effect of fasting on glutathione in 1489
ICI 198,615 binding sites 1411
inhibition of DNA synthesis by difluoromethylornithine 965
liposomes, α-tocopherol and paraquat poisoning 1811
monoclonal antibodies to carboxylesterase isoenzymes 171
paraquat and putrescine uptake by alveolar type II cells 1029
Lung tumor cells
carbonyl reduction 2005
DT-diaphorase levels and sensitivity to quinone-based drugs 409
resistant to cisplatin, reduced drug accumulation 394
Luteolin
effect on cyclic AMP phosphodiesrerase in adipocytes 1307
LY 186641 and 181984
effects on mitochondria 2387
Lymphocytes
benzodiazepine binding sites 269
Lymphoblastoid cell lines
effect of 9-deazaguanine analogs 996
Lymphoid cells
cytoprotective effect of dihydropyridines against oxidized LDL 2379
Lymphoma cells
benzodiazepine binding sites 269
effect of polyene macrolide antibiotics on internal pH 539
Lysosomes
stressed, effect of flavonoids 1243
Lysosomotropic agents
effect on taurocholate-stimulated biliary excretion of horseradish peroxidase 1683

Macrophages
effect of adrenaline on glucose metabolism and H_2O_2 content 2235
alveolar, nitrogen oxide release by alimentary proteins 387
effect of 5,6-dimethyl-xanthenone-4-acetic acid 192
glyceryl tronitrate metabolism 17
Magnesium
effect on CGS 21680 binding to adenosine A2 receptor in striatum 2365

Magnesium-pyridoxal phosphate-glutamate peroxide-dependent amino acid oxidation and chemiluminescence catalysed by 505
Malaria
chloroquine accumulation in Plasmodium falciparum 1317
effect on UDP-glucuronosyltransferase in liver microsomes 1879
D-Malate
effect on fluorescein uptake in renal tubules 2213
Malonaldehyde
as an indicator of lipid peroxidation 985
Malondialdehyde
membrane interactions 1787
Mammary carcinoma Sp107
doxorubicin quinone reduction 2165, 2175
Mammary gland
salicylate-induced cation fluxes 645
Maprotiline
effect on central adrenergic transmission 1067
Mast cells
histamine release produced by antineoplastic drugs 533
5-HT release, effect of cycloheximide 659
MY-1250 induced phosphorylation of a 78-kDa protein in 1211
phospholipase A2 inhibition by biscoclaurine alkaloids 45
MDL 201,000 and 201,003
inhibition of cathepsin B 1201
Mefloquine
effect on primaquine metabolism by human liver microsomes 587
Melanoma cells
nuclear glutathione depletion 1383
Melphalan
cytotoxicity, DNA crosslinking and DNA sequence selectivity of 59
Membranes
effect of cholesterol on disordering actions of ethanol 769
Menadione
induced DNA single strand breaks 215
reduction by DT-diaphorase, novel co-factors 25
Mepacrine
effect on PGE2-induced catecholamine release from chromaffin cells 2315
3-Mercaptolactic acid S-conjugate oxidases
in liver, purification and characterization 703
Metallopeptidase inhibitors
effect on zinc aminopeptidases 1725
Metalloporphyrin-ellipticine complexes
anti-HIV effects 1675
Metalloproteinases
effect of chondroprotective drugs 1549
Methionine synthase
S-adenosylmethionine/S-adenosylhomocysteine in pig tissues 1349
Methotrexate
activation of glycogenolysis, effect of calcium 761
affinity of folate receptor isoforms 1898
Methotrexate(contd.)
transport in intestine 1839
7-Methoxycoumarin O-dealkylase
in hepatocytes, effect of serum-free medium 1461
N^6-Methyladenosine
inhibition of MEL cell differentiation 927
1-Methyl-6,7-dihydroxy-tetrahydroisoquinoline
as substrate for FMO in pig liver 2079
3-O-Methylglucose
uptake by adipocytes, effect of molybdate + H_2O_2 or tungstate + H_2O_2 174
(R)-α-Methylhistamine
binding in brain, effect of thioperamide 1261
1-Methylnicotinamide
DT-diaphorase co-factor 25
N-Methyl-nitrosourea
induced mammary tumor, effect of EB 1089 2273
Methylparapen
effect on cyclic nucleotides and phosphodiesterases in brain 1053
1-Methyl-4-phenylpyridinium
toxicity to hepatocytes, effect of cyclosporin A 833
1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine
as substrate for FMO in pig liver 2079
N-Methylscopolamine
binding in brain, effect of 4-DAMP mustard 285
Metyrapone
carbonyl reduction in continuous cell lines 2005
Mexiletine
metabolic pathways 2089
Mianserin
effect on central adrenergic transmission 1067
Miconazole + lovastatin
anti-leishmanial activity 2199
Microtubules
effect of acetaldehyde-tubulin adducts on formation 65
Milk proteins
biological effects of glycyl-leucyl-phenylalanine 673
Minocycline
inhibition of phospholipase A2 1165
Mitochondria
GC3/cl cells, effect of diarylsulfonylureas 2387
hepatocytes
effect of cyclosporin A on prooxidant induced injury 1995
loss of energization by 1-methyl-4-phenylpyridinium 833
kidney, S-(1,2-dichlorovinyl)-L-cysteine-induced Ca^{2+} release 1131
liver
antioxidant effect of propofol 391
effect of diarylsulfonylureas 2387
N-hydroxy-acetylaminofluorene-induced damage 2339

Mitochondria
liver(contd.)
effect of ibuprofen enantiomers on respiration 1291
paracetamol toxicity 163
effect of protoporphyria on benzodiazepine receptors 1159
effect of trifluoperazine on oxidative damage 1795
Mitomycin C
sensitivity of human tumor cells and levels of DT-diaphorase 409
Mitoxantrone
effect on membrane phospholipid homeostasis 1139
resistant P388 cells, topoisomerase II and P-glycoprotein in 937
Molecular hydrophobicity potential
aminoglycosides 1967
Molsidomine
inhibition of respiratory burst in neutrophils 637
MOLT-4 cells
effect of adenosine deaminase inhibitors on growth inhibition by 2'-deoxyadenosine 1697
effect of 9-deazaguanine analogs on growth 996
Molybdate + H_2O_2
effect on glucose transport in adipocytes 174
Monensin
effect on signal transduction system in parotid cells 1395
Monoamine oxidase A
inhibition by tribulin 1209
inhibition by isatin analogs 590
Monoamine oxidase B
inhibition by isatin analogs 590
Monoclonal antibodies
carboxylesterase isoenzymes in rat and guinea pig tissues 171
cyt P450 in human liver and lung 183
4-hydroxybiphenyl-UDP-glucuronosyltransferase in liver 836
inhibition of benzo(a)pyrene metabolite formation in liver 1977
Monocrotaline
induced pulmonary hypertension, role of polyamine metabolism 965
Monocytes
phospholipase C stimulation by interleukin-1 715
regulation of cyclooxygenase via protein synthesis 955
DL-α-Monofluoromethyldehydroornithine
inhibition of ornithine decarboxylase from Trichomonas vaginalis 243
DL-α-Monofluoromethylornithine
inhibition of ornithine decarboxylase from Trichomonas vaginalis 243
Morin
inhibition of glutathione reductase 1603
effect on lysosomes subjected to stress 1243
Morphine
glucuronidation in liver microsomes, effects of cyclophosphamide and adriamycin 747
3-Morpholinosydnonimine
effect on platelet-activating factor synthesis in endothelial cells 223
3-Morpholinosydnonimine(contd.)
effect on respiratory burst in neutrophils 637
Multidrug resistance
modulation of gene expression in cultured hepatocytes 2259
reversion by doxorubicin-nanospheres 509
Multidrug resistance gene
adriamycin-resistant Chinese hamster cells 1859
Multidrug resistant cells
adriamycin resistance 1859
adriamycin transformation into noncytotoxic form 1869
effect of Servier 9788 on adriamycin accumulation 1707
Murine erythroleukemia cells
inhibition of differentiation by N^6-methyladenosine 927
Muscarinic receptors
brain, inactivation by 4-DAMP mustard 285
Muscimol
binding in brain, effect of free fatty acids 11
Muscle relaxants
pharmacokinetics in perfused liver 1453
uptake system in liver 2323
Muscle, smooth aorta
effect of cyclic AMP phosphodiesterase inhibitors on DNA synthesis 857
MY-1250
induced phosphorylation of a 78-kDa protein in mast cells 1211
Myeloperoxidase
amsacrine oxidation 1731
in leukocytes, inhibition by dapsone 553
Myoglobin
dependent oxidative lipid damage, effect of phenylbutazone 981
Myosin light chain kinase
interaction with berbamine compound E6 1543
Myricetin
inhibition of glutathione reductase 1603

NADH
potentiation of CB 1954 cytotoxicity 1739
NADH/NAD
effect on alcohol dehydrogenase inactivation by alkylperoxyl radicals 1443
NAD(P)H
metabolism by blood components 631
NADPH cyt P450 reductase
in liver microsomes, effect of perfluoro fatty acids 1183
role in doxorubicin quinone reduction in tumor cells 2175
NAD(P)H:quinone-acceptor oxidoreductase
induced alkylating activity of diaziquone 1625
Nafenopin
effect on peroxisomal palmitoyl-CoA ligase 261
Naltrindole

Naltrindole
δ-opioid receptor antagonisr 1687
Naphthalene-1,2-quinone
reduction by liver dihydrodiol dehydrogenase 341
β-Naphthoflavone
effect on carbamazepine metabolism in liver 2307
effect on cyt P450 activities in hepatocytes 455
induction of microsomal activation of 6-aminochrysene 913
induction of SR 4233 reduction by liver microsomes 251
2-Naphthol sulfotransferase
in liver, effect of exercise 121
Naproxen
effect on peroxisomal palmitoyl-CoA ligase 261
Nebularine
inhibition of adenosine deaminase 1697
Nerve growth factor receptors 1233
in PC12 cells, stimulation by acetyl-L-carnitine 577
Neuroblastoma cells N1E-115
effect of ATP 1479
Neurons
capsaicin pharmacology 611
Neurotensin receptor 1233
Neurotoxins
as substrates for FMO in pig liver 2079
Neurotrauma
polyamines 401
Neutral endopeptidase
effect on atrial natriuretic peptide factor clearance in rats 1013
Neutrophils
effect of molsidomine on respiratory burst 637
priming by granulocyte colony stimulating factor 1045
effect of sphingosine and trimethylsphingosine 1585
NF-κB
effect of dexamethasone on expression of 1569
Nialamide
effect on central adrenergic transmission 1067
Nicardipine
effect on Na^+,K^+-ATPase in kidney 1529
effect on calcium uptake by liver plasma membrane vesicles 1214
cytoprotective effect against oxidized LDL 2379
inhibition of PN 200-110 binding in heart, effect of GTP-γ-S 1680
Nicotinamide
effect on P-glycoprotein expression in cultured hepatocytes 2259
Nicotinamide compounds
potentiation of CB 1954 toxicity 1739
Nicotinamide ribotide/riboside
DT-diaphorase co-factor 25
Nicotinic acetylcholine receptor
mediated catecholamine secretion, effect of sea urchin toxin 1779
Nifedipine
effect on Na^+,K^+-ATPase in kidney 1529
Nifedipine(contd.)
effect on calcium uptake by liver plasma membrane vesicles 1214
inhibition of PN200-110 binding in heart, effect of GTP-γ-S 1680
Nimodipine
cytoprotective effect against oxidized LDL 2379
Nisoldipine
effect on calcium uptake by liver plasma membrane vesicles 1214
cytoprotective effect against oxidized LDL 2379
Nitric oxide
formation from glyceryl trinitrate in macrophage cells 17
generating vasodilators, effect on PAF synthesis in endothelial cells 223
release by alveolar macrophages 387
thiol-mediated generation from furoxans 1149
p-Nitroanisole N-demethylase
in liver microsomes
effect of ethylbenzene 1171
effect of δ-9-tetrahydrocannabinol + theophylline 2021
Nitrobenzamide
reduction by DT-diaphorase, novel co-factors 25
S-p-Nitrobenzoxycarbonylglutathione diethyl ester
effect on leukemia HL-60 cells 2357
Nitrobenzylthioinosine
modification of and inhibition of nucleoside transport 1577
Nitrogen oxides
independent respiratory burst in neutrophils, effect of molsidomine 637
release by alveolar macrophages 387
2-Nitroimidazole-aziridines
induction of mutations in V79-4 cells 1341
p-Nitrophenol hydroxylase
in hepatocytes, effect of serum-free medium 1461
K^+-p-Nitrophenyl phosphatase
effect of β-eudesmol 993
4-Nitroquinoline-1-oxide
effect of dicumarol on metabolism 921
Nitroreductase
E.coli, CB 1954 reduction by 2289, 2297
Nitrous oxide
methionine synthase and AdoMet/AdpHyc ratio in pig tissue 1349
^{2}H-NMR
membrane actions of ethanol 769
Nociceptive neurons
capsaicin-induced activation 611
Nomifensine
effect on central adrenergic transmission 1067
Notexin
effect on aminophospholipid asymmetry 1073
Nuclear localization signals 1233
Nuclear receptors 1233
Nuclei
melanoma cells, glutathione pool 1383
Nucleoside transport

Nucleoside transport
effect of modified nitrobenzylthioinosine 1577
Nutrient stress
glutathione in liver and lung 1489

Ochratoxin A
effect on calcium uptake by renal microsomes 1401
Oleic acid
2'-deoxy-5-fluorouridine conjugate, antitumor activity 149
effect on $GABA_A$ receptor ligand binding 11
Olive oil
dietary, effect on UDP-glucuronosyltransferase in liver 335
Olsalazine
effect on folate and methotrexate transport in intestine 1839
Olvanil
neuropharmacology 611
Omeprazole
inhibition of transketolase and pyruvate decarboxylase 177
Opioid peptides
sensitivity of δ-opioid receptor 1687
δ-Opioid receptor radioligands 1687
Org 6368
pharmacokinetics in perfused liver 1453
uptake system in liver 2323
Org 9426
uptake system in liver 2323
Organophosphate anhydride hydrolase
protection against tabun toxicity in mice 397
Organophosphorus acid triester
effect on tryptophan metabolism in mice 2243
Ornithine decarboxylase
in brain after trauma 401
in kidney, induction by cadmium 721
in liver, induction by cadmium 721
in Trichomonas vaginalis, inhibition by amino acid analogs 243
Osmotic stress
lysosomes, effect of flavonoids 1243
Ouabain
bepridil interaction 1529
effect on dopamine formation in kidney 1883
effect on GABA release from synaptosomes 301
Ovalbumin
induced mediator release from lung pleura 1609
Ovarian adenocarcinoma 509
Oxidative burst
PMNs, effect of tripeptides from milk 673
Oxidative damage
liver mitochondria, effect of trifluoperazine 1795
Oxidative phosphorylation
effect of diarylsulfonylurea antitumor agents 2387
effect of ibuprofen enantiomers 1291
Oxidative stress
human tumor cells, induction of stress proteins 2123
Oxidative stress(contd.)
lysosomes, effect of flavonoids 1243
mitochondrial Ca^{2+} cycling, effect of cyclosporin A 1995
nuclear glutathione depletion 1383
protein-specific S-thiolation in endothelial cells 1757
Oxime acetylcholine reactivators
binding to proteoglycans in chondrocytes and fibroblasts 1927
8-Oxo-7,8-dihydrooxyguanosine
in bleomycin-treated hepatocytes 1255
Oxygen
harmol glucuronidation in liver, effect of fasting 1887

Palmitic acid
effect on chiral inversion of ibuprofen in hepatocytes 1468
Palmitoylcarnitine
protein kinase C inhibition 1325
Palmitoyl-CoA ligase
in liver peroxisomes, inhibition by xenobiotic carboxylic acids 261
Pancreatic ialets
effect of cyclosporin A on cyclic AMP system in 359
GABA in 1
Pancuronium
pharmacokinetics in perfused liver 1453
Paraquat
lung toxicity, effect of liposome-associated α-tocopherol 1811
uptake by alveolar type II cells, effect of putrescine 1029
Parathion hydrolase
protection against tabun toxicity in mice 397
Parenchymal cells
carboxylesterases in 827
cryopreserved, metabolism in 309
Parotid cells
effect of monensin on signal transduction system 1395
PD 141955
in vitro and in vivo activities 996
Pentamidine
inhibition of enzymes of polyamine back-conversion 830
Pentobarbitone
effect on flunitrazepam binding in brain 1297
7-Pentoxyphenoxazone
depentylation in liver, effect of aryl acetylenes 787
Pentoxyresorufin O-dealkylase
in hepatocytes
effect of PCBs 455
effect of serum-free medium 1461
in liver, hamster, effect of clotrimazole 2266
7-Pentylresorufin O-depentylase
in liver microsomes, effect of promazine and chlorpromazine 1219
Pepstatin
effect on endothelin release at different cell densities 851
Peptidyl fluoromethyl ketones
inhibition of cathepsin B 1201

Perfluoro fatty acids
effects on mouse liver 1183
Perimycin
effect on Na^+/H^+ exchanger in lymphoid cells 539
Peripheral blood mononuclear cells
effect of albumin on adenylate cyclase in 351
Peroxidase-hydrogen peroxide
oxidation of phenothiazines 889
Peroxidases
inhibition by dapsone 553
Peroxide
iron binding and toxicity in hepatocytes 1367
magnesium-pyridoxal phosphate-glutamate interaction 505
Peroxisome proliferator-activated receptor 1233
Peroxisome proliferators
effect on peroxisomal palmitoyl-CoA ligase 261
Peroxisomes
liver, palmitoyl-CoA ligase inhibition by xenobiotic carboxylic acids 261
Peroxyl radical
reduction by dihydrolipoic acid 1637
Perphenazine
inhibition of acetylcholinesterase 1511
Pertussis toxin
stimulated cyclic AMP production in pancreatic islets, effect of cyclosporin A 359
P-glycoprotein
in adriamycin-resistant Chinese hamster cells 1859, 1869
mediated multidrug resistance, effect of S9788 on adriamycin accumulation 1707
in mitoxantrone resistant P388 cells 937
modulation of expression in cultured hepatocytes 2259
Phenanthrene quinone
reduction by liver dihydrodiol dehydrogenase 341
Phenobarbital
induction of hepatic drug-metabolizing enzymes, strain and species differences 1651
induction of microsomal activation of 6-aminochrysene 913
Phenobarbitone
effect on carbamazepine metabolism in liver microsomes 2307
induction of SR 4233 reduction by liver microsomes 251
Phenol sulfotransferase
in liver, cryopreserved cells 309
Phenothiazines
effect on cyt P450s in rat liver 1219
inhibition of acetylcholinesterase 1511
oxidation by peroxidase-hydrogen peroxide 889
effect on PUFAs in thrombocytes from schizophrenic patients 317
Phenylbutazone
effect on drug binding to albumins 873
+ heme proteins, oxidative damage
Phenylbutazone(contd.)
to lipids and α1-antiproteinase 981
Phenylephrine
effect on gluconeogenesis in liver of ethanol-treated rats 1617
Phenylethanolaminotetralines
effect on dihydroalprenolol binding in colon 665
Phenyl-hydroquinone
cytotoxic effects on hepatocytes 1059
Phenylpyruvate
effect on fluorescein uptake in renal tubules 2213
Phenylthiourea
oxidation in mammalian tissues 2029
Pheochromocytoma cells
nerve growth factor receptor stimulation by acetyl-L-carnitine 577
Phloretin
effect on cyclic AMP phosphodiesterase in adipocytes 1307
Phorbol ester
induced monocytic differentiation, effect of dexamethasone 1569
mitogenic response in thymocytes, effect of staurosporine 1563
Phosphatidylcholine hydroperoxide
generated by ischaemia-reperfusion in liver 2412
Phosphatidylethanolamine
asymmetry in synaptosomes, effect of phospholipase A2 toxins and enzymes 1073
Phosphatidylinositol
aminoglycoside interaction, molecular hydrophobicity potential 1967
Phosphatidylserine
asymmetry in synaptosomes, effect of phospholipase A2 toxins and enzymes 1073
Phosphoinositidase C
role in hepatocyte growth factor-induced hepatocyte proliferation 1037
Phosphoinositides
in cultured bovine zona fasciculata/reticularis cells, effect of acetylcholine and angiotensin II 411
metabolism in platelets, effect of chlorpromazine 2013
metabolism in PMNs, effect of tripeptides from milk 673
Phospholipase
inhibition by aminoglycosides 1967
Phospholipase A2
effect on aminophospholipid asymmetry in synaptosomes 1073
effect on $GABA_A$ receptor 11
human, calcium dependencies 1849
inhibition by alkylbenzoylacrylic acids 805
inhibition by tetracyclines 1165
in mast cells, inhibition by bisco-claurine alkaloids 45
in platelets, effect of anti-flammins 1437
in synovial fluid, effect of antiflammins 519
Phospholipase A2 inhibitors

Phospholipase A2 inhibitors
effect on lyso PAF production and arachidonic acid release 2055
effect on PGE2 induced catecholamine release 2315
Phospholipase C
in monocytes, stimulation by interleukin-1 715
in pituitary tumor cells, effect of hypothalamic hormones 471
role in PGE2-induced catecholamine release from chromaffin cells 2315
Phospholipid
biliary secretion, effect of cyclosporin A 1105
homeostasis in liver and heart, effect of antitumor drugs 1139
9-(2-Phosphonomethoxyethyl)adenine
phosphorylation by AMP(dAMP) kinase from L1210 cells 2067
Phosphoramidon
effect on endothelin release at different cell densities 851
Physical activity
effect on xenobiotic biotransformation enzymes 121
Piceatanol
effect on gastric H^+,K^+-ATPase 1947
Picroliv
antioxidant properties 180
Picroside-I
antioxidant properties 180
Pig
effect of nitrous oxide on methionine synthase and AdoMet/AdoHyc ratio in tissues 1349
Pinacidil
regulation of ATP-sensitive K^+-channels 1843
Pirarubicin
effect on membrane phospholipid homeostasis 1139
Pituitary tumor cells GH3
hormone regulation of G proteins 471
Pivampicillin
reduced carnitine and ketogenesis in rat 1226
PK 11195
binding to human lymphocytes and lymphoma cells 269
binding in liver mitochondria, effect of protoporphyria 1159
binding in rat tissues, effect of ethanol 1335
Plasmodium berghei
infected rats, UDP-glucuronosyltransferase in liver 1879
Plasmodium falciparum
chloroquine accumulation 1317
Platelet-activating factor
regulation of production 2055
synthesis in endothelial cells, effect of nitrovasodilators 223
Platelet-activating factor receptor
cloning 1001
effect of SRI 62-834 819
Platelets
aminopeptidase P in 479
antiaggregating activity of clopidogrel 527
effect of antiflammins 1437
BAY U 3405 binding 495
Platelets(contd.)
chlorpromazine induced changes in phosphoinositide metabolism 2013
glyceryl trinitrate inhibited aggregation 17
effect of oral hypoglycemic agents 687
effect of tyrphostins on activation 881
Pleiotropic response
induction by phenobarbital and related compounds 1651
PN 200-100
binding in heart, effect of GTP-γ-S on displacement 1680
Poly(ADP-ribose)polymerase
inhibition by nucleoside analogs of thymidine 947
Polyamidines
DNA binding 1985
Polyamines
in male accessory organs, effect of ara-C 593
metabolism in lung, role in monocrotaline induced pulmonary hypertension 965
in neurotrauma 401
Polyamine back-conversion enzymes
inhibition by pentamidine and berenil 830
Polyamine oxidase
in L1210 cells, inhibition by pentamidine and berenil 830
Polychlorinated biphenyls
induction of cyt P450 activities in hepatocytes 455
Polycyclic aromatic hydrocarbon quinones
reduction by liver dihydrodiol dehydrogenase 341
Polyene macrolide antibiotics
stimulation of Na^+/H^+ exchanger in lymphoid cells 539
Polyinosinic acid·polycytidylic acid
suppression of hepatic cytochrome P450A mRNA 604
Polylysine
stimulation of GTPase activity of G proteins 547
Polymorphonuclear leukocytes
gold complexes and activation of 1091
priming by granulocyte colony stimulating factor 1045
effect of sphingosine and its N-methyl derivatives on function of 1585
effect of tripeptides derived from milk 673
Polyunsaturated fatty acids
in thrombocytes from schizophrenic patients, effect of phenothiazine and thioxanthene 317
Porfiromycin
sensitivity of human tumor cells and levels of DT-diaphorase 409
Porphyrin
accumulation in hepatocytes treated with Aroclor 1254 455
Potassium
effect on CGS 21680 binding to adenosine A2 receptor in striatum 2365

Potassium(contd.)
effect on GABA release from synaptosomes 301
transport in mammary tissue, effect of salicylate 645
Potassium channels
ATP-sensitive, regulation by glyburide and pinacidil 1843
Precocene I and II
toxicity to hepatocytes, effect of serum-free medium 1461
Pregnancy
expression of cyt P450 2E and 2B RNAs in hamster liver and lung 797
Pregnenolone-16α-carbonitrile
effect on enalapril hepatotoxicity 1803
induction of SR 4233 reduction by liver microsomes 251
Primaquine
metabolism by human liver, effect of antimalarial drugs 587
Probestin
inhibition of zinc aminopeptidases 1725
Progesterone
hydroxylation by liver microsomes, effect of promazine and chlorpromazine 1219
turnover by cyt P450c17, effect of ketoconazole 2371
Promazine
effect on cyt P450 in rat liver 1219
Pro-opiomelanocortins
enzymology of processing 843
Propionaldehyde
oxidation by aldehyde dehydrogenase 2425
Propofol
antioxidant effects 391
effect on flunitrazepam binding in brain 1297
Propoxycoumarin O-dealkylase
in hepatocytes, effect of serum-free medium 1461
Propranolol
effect on GABAergic system in brain areas of spontaneously hypertensive rats 465
metabolism in perfused liver 2281
Prostaglandin D2
release from lung pleura 1609
Prostaglandin E2
induced arachidonic acid release and catecholamine secretion from chromaffin cells 2315
release from lung pleura 1609
stimulated cyclic AMP production in PBMC, effect of albumin 351
synthesis in monocytes, effect of cycloheximide 955
Prostaglandin F2α
effect on gluconeogenesis in liver of ethanol0treated rats 1617
release from lung pleura 1609
Δ^{12}-Prostaglandin J2
induced protein synthesis in aortic endothelial cells, effect of glutathione 1597
Prostate gland
effect of ara-C on polyamines in 593
Protein
biliary secretion, effect of cyclo
Protein(contd.)
cyclosporin A 1105
Δ^{12}-PGJ2-induced synthesis in aortic endothelial cells, effect of glutathione 1597
synthesis in adrenocortical cells, effect of substance P 1357
synthesis in mast cells, inhibition by cycloheximide 659
S-thiolation in endothelial cells during oxidative stress 1757
Protein kinase A
role in histamine-induced differentiation of HL-60 cells 1115
Protein kinase C
platelets, effect of tyrphostins 881
potency of inhibitors as a function of kinase activator 1325
regulation of neutrophil priming by granulocyte colony stimulating factor 1045
role in thymocyte signal transduction and mitogenesis 1563
Protein kinase C inhibitors
modulation of neutrophil priming by granulocyte colony stimulating factor 1045
effect on neutrophil function 1585
Protein thiols
in heart, effect of ethanol 1495
in hepatocytes, effect of hydroquinones 1059
Proteoglycans
in chondrocytes and fibroblasts, binding of oxime acetylcholinesterase reactivators 1927
Protoporphyria
effect on benzodiazepine receptors in liver mitochondria 1159
Pulmonary hypertension
monocrotaline induced, role of polyamine metabolism 965
Purine nucleoside phosphorylase
9-deazaguanine analog inhibitors, *in vivo* and *in vitro* activities 996
Putrescine
aziridinyl derivatives, inhibition of diamine oxidase 1229
in lung, effect of monocrotaline and difluoromethylornithine 965
in male accessory organs, effect of ara-C 593
uptake by alveolar type II cells, effect of paraquat 1029
Pyridine nucleotides
potentiation of CB 1954 cytotoxicity 1739
Pyridinium derivatives
co-factors for DT-diaphorase 25
Pyrimidine nucleosides
anti-HIV activity, substrates for *E.coli* thymidine phosphorylase 199
Pyrimidoxime
binding to proteoglycans in chondrocytes and fibroblasts 1927
Pyruvate
effect on P-glycoprotein expression in cultured hepatocytes 2259
Pyruvate decarboxylase
inhibition by omeprazole 177

Quantitative structure-metabolism relationships
substituted benzoic acids in rat 1935
Quercetin
effect on cyclic AMP phosphodiesterase and lipolytic activity in adipocytes 1307
inhibition of glutathione reductase 1603
effect on lysosomes subjected to stress 1243
Quercitrin
effect on metyrapone reduction in continuous cell lines 2005
Quinidine
cyt P450 2D6 inhibitor 2089
Quinolinate
effect on fluorescein uptake in renal tubules 2213
Quinone
induced DNA single strand breaks 215
reduction by dihydrodiol/3α-hydroxysteroid dehydrogenase in rat liver 341
reduction of doxorubicin in vivo in tumor tissue 2165, 2175
Quinone-based drugs
sensitivity of human tumor cells and levels of DT-diaphorase 409
Quinpirole
effect on cycloc AMP accumulation in striatum 73, 83
Quinuclidinylbenzilate
binding in brain, effect of 4-DAMP mustard 285

Radiation
sensitive Chinese hamster cell lines 1859
Rat strains
phenobarbital induced pleiotropic response 1561
Reactive oxygen species
interaction with coumarins 205
Red blood cell cytosol
oxidative activation of 2-aminofluorene 2422
Renin-angiotensin system
acute effects of cadmium 187
role in cadmium induction of ornithine decarboxylase in liver 721
Rentiapril
effect on zinc aminopeptidases 1725
Repirinase metabolite MY-1250
induced phosphorylation of a 87-kDa protein in mast cells 1211
Reserpine
down regulation of D1 dopamine receptor associated adenylyl cyclase in striatum 83
Respiratory burst
neutrophils, effect of molsidomine 637
Retinal
protein kinase C inhibition 1325
Reverse transcriptase
FIV, inhibition by dATP analogs 1375
HIV-1, effect of metalloporphyrin-ellipticine complexes 1675
Rheumatoid arthritis
treatment with fluoromethyl ketones
Rheumatoid arthritis(contd.) 1201
Rhodamine 6G
protein kinase C inhibition 1325
Ribonucleic acid polymerase
inhibition by captan 2251
Ribonucleotide reductase M2 subunit
inhibition by gallium 2403
Ro5-4864
effect on PK 11195 binding in lymphocytes and lymphoma cells 269
Ro-20-1724
effect on DNA synthesis in aortic smooth muscle 857
Rolipram
effect on cyclic AMP metabolism in chromaffin cells 2105
effect on DNA synthesis in aortic smooth muscle 857
RSU-1069 and -1131
induction of mutations in V79-4 cells 1341
Ryanodine
metabolic effects in liver 413

Salicylate
binding to HSA variants 1515
induced cation fluxes 645
Salmonella typhimurium
acetyltransferase-overexpressing strain, 6-aminochrysene activation 913
Scalaradial
effect on lysoPAF production and arachidonic acid release 2055
SCH 23390
binding in brain, effect of group-specific modifying agents 325
effect on cyclic AMP accumulation in striatum 73, 83
Schizophrenic patients
phenothiazine and thioxanthene lower PUFAs in thrombocytes 317
Scutellarein
effect on cyclic AMP phosphodiesterase in adipocytes 1307
Sea urchin toxin
effect on catecholamine secretion 1779
Selenium
in heart, effect of ethanol 1495
Seminal vesicles
effect of ara-C on polyamines in 593
Sensory neurons
capsaicin-induced activation 611
Serum-free medium
effect on cyt P450-dependent metabolism and toxicity in hepatocytes 1461
Servier 9788
effect on adriamycin accumulation in multidrug-resistant cells 1707
Sex differences
benzo(a)pyrene biotransformation in rat tissues, effect of ethanol 1977
cinnarizine metabolism in rat liver microsomes 1471
cyt P450 IIIA in human liver 275
epoxide hydrolase in liver

Sex differences(contd.)
microsomes 815
ethylbenzene-mediated cyt P450 induction in rat liver 1171
growth hormone regulation of testosterone metabolism in cultured hepatocytes 1523
Sex hormones
effect on cadmium induction of hepatic ornithine decarboxylase 721
Sheep
β-adrenergic receptors in adipose tissue 681
Signal transduction
PAF receptor 1001
in parotid cells, effect of monensin 1395
in peripheral blood mononuclear cells, effect of albumin 351
in thymocytes, effect of staurosporine 1563
SKF 38393
effect on cyclic AMP accumulation in striatum following 6-hydroxydopamine 73
effect on cyclic AMP accumulation in striatum following reserpine 83
SKF 94836
effect on DNA synthesis in aortic smooth muscle 857
Skin
LTA4 conjugation to LTC4 2047
Snake venom toxins and enzymes
effect on aminophospholipid asymmetry in synaptosomes 1073
Sodium
effect on CGS 21680 binding to adenosine A2 receptor in striatum 2365
effect on dopamine formation in kidney 1883
in parotid cells, effect of monensin 1395
Sodium/calcium exchange
in atrial muscle, effect of TMB8 425
Sodium/hydrogen exchange
in atrial muscle, effect of TMB8 425
in lymphoid cells, effect of polyene macrolide antibiotics 539
Sodium nitroprusside
effect on platelet-activating factor synthesis in endothelial cells 223
Sodium pentosan polysulphate
effect on metalloproteinases 1549
Sodium pump
in red blood cells, effect of bepridil 1529
So-Jutsu
effect of β-eudesmol on Na^+,K^+-ATPase 373
effect of β-eudesmol on K^+-pNPPase 993
Somatostatin
regulation of G proteins in pituitary tumor cells 471
Sorbinil
binding to aldose reductase 2427
Soybean trypsin inhibitor
induction of nitrogen oxide release by alveolar macrophages 387
Species differences
histamine H3 receptors in brain 1261
Species differences(contd.)
phenobarbital induced pleiotropic response 1651
Spermidine
in lung, effect of monocrotaline and difluoromethylornithine 965
in male accessory organs, effect of ara-C 593
Spermidine/spermine acetyltransferase
in melanoma cells, inhibition by pentamidine and berenil 830
Spermine
in lung, effect of monocrotaline and difluoromethylornithine 965
in male accessory organs, effect of ara-C 593
Sphingosine
5-methyl derivatives, effect on neutrophil function 1585
protein kinase C inhibition 1325
Spinal cord
methionine synthase and AdoMet/AdoHyc ratio, effect of nitrous oxide 1349
Splanchnic tissues
haloperidol uptake and release *in vivo* 601
Spontaneously hypertensive rats
effect of propranolol on GABAergic system in brain areas 465
Squamous-carcinoma cells
resistant to cisplatin, reduced drug accumulation in 394
SR 58611A
effect on dihydroalprenolol binding in colon 665
SRI 62-834
cytotoxicity and membrane-damaging activity 819
ST 638
effect on neutrophil response to granulocyte colony stimulating factor 1045
Starvation
glutathione in liver and lung of neonatal and adult guinea pigs 1489
Staurosporine
effect on neutrophil response to granulocyte colony stimulating factor 1045
protein kinase C inhibition 1325
effect on thymocyte function 1563
Steroidal muscle relaxants
pharmacokinetics in perfused liver 1453
Steroidogenesis
substance P-induced 1357
Sterols
in *Leishmania* species, effect of miconazole + lovastatin 2199
Stilbene derivatives
effect on gastric H^+,K^+-ATPase 1947
Stomach
effect of stilbene derivatives on H^+,K^+-ATPase 1947
Stress proteins
in human tumor cells 2123
Stromelysin
effect of chondroprotective drugs 1549
K-Strophantoside

K-Strophantoside
effect on cation uptake in hepatocytes 2323
Styrene oxide hydrolase
in liver, effect of exercise 121
Substance P
inactivation by granulation tissue-derived gelatinase 1773
induced protein synthesis 1357
Sugar aciduria
NMR detection 231
Suicide inhibitors
cyt P450 1A1 and 2B1 in liver 787
Sulfasalazine
effect on folate and methotrexate transport in intestine 1839
Sulfobromophthalein
effect on hepatobiliary transport of antimony and bismuth 1275
Sulfhydryl converting enzyme inhibitors
effect on zinc aminopeptidases 1725
Sulfonylureas
regulation of ATP-sensitive K^+-channel 1843
Sulpiride
effect on cyclic AMP accumulation in striatum 73, 83
Superoxide
generation by neutrophils
effect of gold complexes 1091
effect of granulocyte colony stimulating factor 1045
effect of molsidomine 637
effect of sphingosine and its N-methyl derivatives 1585
effect of tripeptides from milk 673
scavenging by coumarins 205
scavenging by picroliv, picroside-I and kutloside 180
Superoxide dismutase
in *Acanthocheilonema viteae* and its host tissues, effect of compound 82/437 727
in brain, effect of (-)deprenyl infusion 2185
in heart, effect of ethanol 1495
in liver
effect of (-)deprenyl infusion 2185
effect of perfluoro fatty acids 1183
Sydnonimines
effect on respiratory burst in neutrophils 637
Synaptosomes
antioxidants and amine uptake 2395
effect on depolarizing agents on GABA release 301
effect of phospholipase A2 toxins and enzymes on aminophospholipis asymmetry 1073
Syncytium
effect of metalloporphyrin-ellipticine complexes on formation of 1675

TA3090
protection against hypoxic liver injury 2207
Tabun
toxicity in mice, effect of parathion hydrolase 397
Taurocholate
effect on cation uptake in liver 2323
stimulated biliary excretion of horseradish peroxidase, effect of lysosomotropic agents 1683
Taxifolin
effect on cyclic AMP phosphodiesterase in adipocytes 1307
Testis
effect of ara-C on polyamines in 593
cyt P450 c17 inhibition by ketoconazole 2371
effect of ethanol on benzodiazepine receptors 1335
Testosterone
metabolism by cultured hepatocytes, growth hormone regulation 1523
metabolism in liver
effect of cerium 1269
cryopreserved parenchymal cells 309
hamster, effect of clotrimazole 2266
induction by phenobarbital, rat strain differences 1651
effect of promazine and chlorpromazine 1219
Tetra-p-amidinophenoxyneopentane
DNA binding and cytotoxicity 1985
3,3',4,4'-Tetrachlorobiphenyl
effect on cyt P450 activities in hepatocytes 455
Tetracyclines
inhibition of phospholipase A2 1165
Δ-9-Tetrahydrocannabinol
+ theophylline, effect on hepatic drug-metabolizing enzymes 2021
1,2,3,4-Tetrahydroisoquinoline
as substrate for FMO in pig liver 2079
Tetraphenylphosphonium cation
effect on GABA release from synaptosomes 301
Theobromine
fluorescence quenching of HSA 824
Theophylline
effect on alloxan toxicity 2111
fluorescence quenching of HSA 824
effect on histamine release from mast cells produced by antineoplastic drugs 533
Theophylline + Δ-9-tetrahydrocannibinol
effect on hepatic drug-metabolizing enzymes 2021
Thermotolerance
oxidative stress in human tumor cells 2123
Thiamin-dependent enzymes
effect of omeprazole 177
Thiocarbamides
selective for flavin monooxygenase isoforms 2029
Thiocarbonohydrazone
binding to HSA 1417
Thiocholine
thiocarbamide-dependent oxidation 2029
Thioctic acid
antioxidant activity 1637
S-Thiolation
in endothelial cells during oxidative stress 1757

Thiols
induced generation of nitric oxide from furoxans 1149
Thioperamide
in vivo occupancy of histamine H3 receptors in brain 1261
Thiopurine methyltransferase
in human kidney 775
Thioridazine
oxidation by peroxidase-hydrogen peroxide 889
Thiorphan
effect on endothelin release at different cell densities 851
Thiourea
oxidation in mammalian tissues 2029
Thioxanthine
effect on PUFAs in thrombocytes from schizophrenic patients 317
Thrombin
induced endothelin-1 release in endothelial cells 2409
induced PAF synthesis in endothelial cells, effect of nitrovasodilators 223
platelet ectivation, inhibition by tyrphostins 881
Thrombocytes
schizophrenic patients, effects of phenothiazine and thioxanthine on PUFAs 317
Thromboxane A2
production by platelets, effect of alkylbenzoylacrylic acids 805
release from lung pleura 1609
release in monocytes, effect of cycloheximide 955
Thromboxane A2/prostaglandin H2 receptor
in platelets, BAY U 3405 binding 495
Thromboxane B2
release from lung pleura 1609
Thymidine
nucleoside analogs, inhibition of poly(ADP-ribose)polymerase 947
Thymidine phosphorylase
E.coli, substrate specificity of nucleoside antiviral agents 199
Thymocytes
apoptosis in, effect of dexamethasone 2131
effect of staurosporine on function 1563
Thyroliberin
regulation of G proteins in pituitary tumor cells 471
Tiaprofenic acid
effect on peroxisomal palmitoyl-CoA ligase 261
TMB8
binding to proteoglycans in chondrocytes and fibroblasts 1927
α-Tocopherol
liposome-associated, effect on paraquat-induced lung damage 1181
α-Tocopherolquinone
reduction in hepatocytes 489
Toluene
metabolism by liver microsomes, effect of ethyl benzene 1171
Topoisomerase II
5,11-dimethyl-5H-idolo(2,3-b)quinoline as a targeting agent 2149
effect of GR 63178A 433
Topoisomerase II(contd.)
inhibition by woodfructicosin 1961
in mitoxantrone resistant P388 cells 937
Topoisomerase II inhibitors
antitumor activity 1961
Transketolase
inhibition by omeprazole 177
Tranylcypromine
effect on central adrenergic transmission 1067
gas chromatographic separation of enantiomers 1894
Trauma
polyamines in brain 401
Triazinoaminopiperidine derivative S9788
effect on adriamycin accumulation in multidrug-resistant cells 1707
Tribulin
in brain, effect of audiogenic seizures 1209
Tri-n-butylmethylammonium
uptake system in liver 2323
Trichomonas vaginalis
ornithine decarboxylase inhibition by amino acid analogs 243
Trifluoperazine
inhibition of acetylcholinesterase 1511
oxidation by peroxidase-hydrogen peroxide 889
effect on oxidative damage of mitochondria 1795
Trifluoroacetylated protein antigens
in liver of halothane treated rats 621
2,2,2-Trifluoroethanol
rat liver metabolism and toxicity 1829
Triflupromazine
oxidation by peroxidase-hydrogen peroxide 889
Trifluridine
detection of new metabolites using ^{19}F NMR spectroscopy 2233
Trimethylsphingosine
effect on neutrophil function 1585
Tripeptides
derived from milk, effect on PMNs 673
Trolox C
effect on synaptosomal amine uptake 2395
Trypanosoma brucei brucei
inhibition of S-adenosylmethionine decarboxylase by S-adenosylmethionine analogs 905
Tryphostin AG490
effect on thymocyte functions 1563
Tryptophan
diazinon-altered metabolism in mice 2243
6-fluoro-DL-tryptophan interaction 2082
Tubulin
inhibition of assembly by acetaldehyde adducts 65
Tumor necrosis factor
expression in HL-60 cells, effect of diethyldithiocarbamate 365
Tungstate + H_2O_2
effect on glucose transport in

Tungstate + H_2O_2(contd.)
in adipocytes 174
Tyrosine kinase
role in hepatocyte growth factor-induced hepatocyte proliferation 1037
Tyrosine kinase inhibitors
effect on neutrophil response to granulocyte colony stimulating factor 1045
inhibition of platelet activation 881
effect on thymocyte function 1563

Uric acid
effect on alloxan toxicity 2111
Uridine
transport in erythrocytes, effect of nitrobenzylthioinosine derivatives 1577
Uridine diphosphate glucuronic acid
in liver, effect of cadmium 2139
Uridine diphosphate glucuronosyltransferase
in liver microsomes
effects of cyclophosphamide and adriamycin 747
effect of dietary lipids 335
effect of exercise 121
4-hydroxybiphenyl, monoclonal antibodies against 836
effect of malaria infection 1879

V79-4 cells
induction of mutation by RSU-1069 1341
Vacidin
effect on Na^+/H^+ exchanger in lymphoid cells 539
Vacidin glycyl methyl ester
effect on Na^+/H^+ exchanger in lymphoid cells 539
Vasoactive intestinal peptide
regulation of G proteins in pituitary tumor cells 471
Vasoactive intestinal peptide receptor 1233
Vasodilators
furoxans 1149
effect on PAF synthesis in endothelial cells 223
Vecuronium
pharmacokinetics in perfused liver 1453
uptake system in liver 2323
Verapamil
effect on Na^+,K^+-ATPase in kidney 1529
effect on calcium uptake by liver plasma membrane vesicles 1214
effect on chloroquine resistance in *Plasmodium falciparum* 1317
Veratridine
effect on GABA release from synaptosomes 301
Vesamicol analogs
calcium channel blocking activity 2039
Viloxazine
effect on central adrenergic transmission 1067
Vincristine
resistant P388 cells, topoisomerase II and P-glycoprotein in 937
Vinorelbine
induced histamine release from mast cells 533
Vitamin D analogs
antitumor effects 693, 2273
Vitamin E radical
dihydrolipoic acid interaction 1637

Warfarin
albumin binding 873, 1515
WEB 2086BS
effect on cytotoxicity of SRI 62-834 819
Woodfructicosin
antitumor activity 1961

Xanthine oxidase
malonaldehyde oxidation 985
reduction of 6-N-hydroxylaminopurine to adenine 1501
Xanthines
fluorescence quenching of HSA 824
Xanthurenic acid
urinary excretion, effect of diazinon 2243

YS 980
effect on zinc aminopeptidases 1725

Zidovudine
effect on erythropoietin receptor 1009
Zinc
in heart, effect of ethanol 1495
Zinc aminopeptidases
inhibition of 1725
Zofenoprilat
effect on zinc aminopeptidases 1725
Zona fascicularis/reticularis cells
stimulation of phosphoinositides by acetylcholine and angiotensin II 441
